LEMON GROVE REVIEW

Vol. 28, No. 6 | Lemon Grove, California | Thursday, September 4, 1975 | Phone 469-0101 | Ten Cents

The DIMMER VIEW

by Max Goodwin

College Districts Grow

The "layer" form of government that is becoming so onerous to citizens of the Golden State of California is cropping up in Community College Districts.

A little-noticed ultimatum recently issued ordered every county which sends more than 250 students to a community college must require all of its school districts to annex to a community college district.

The ultimatum is going to be costly to some communities which have never given thought to the matter — until they read this.

Some school districts with only a few of its residents attending a community college pay only the county-wide tax for support of community colleges. This tax is lower than the property tax being levied by those living within a community college district.

But soon such districts must annex to a community college district by a vote of the people — or the Community Colleges Board of Governors will do it for the hapless people.

In some districts it will raise the cost of education drastically.

The Mountain Empire Unified School District, for instance — just east of here — would have its taxes increased by 121 per cent!

The county-wide tax now raises $108,000 but the Grossmont College District, to which Mountain Empire would most likely be annexed, will add some $239,000 in taxes.

Only 8 students from Mountain Empire are currently attending a community college. $347,200 spread among the 8 works out to $40,000 a student.

The Borrego Springs bit is only slightly less severe. Annexation for them will work out to $89,061 for their four students. That's $22,000 a student!

While that doesn't appreciably affect the local tax rate it does create two new communities of opposition to school systems' costs.

What education doesn't need right now is more resistance to the growing expense of education.

Chacon Calls Public Meet In Lemon Grove Saturday

Assemblyman Pete Chacon's Citizens Advisory Council will hold its September meeting in Lemon Grove.

It will be at the Lemon Grove Junior High school, 7866 Lincoln ave. at 10 a.m. Saturday.

Chacon is the assemblyman for the Lemon Grove area.

It will be the seventh in a series of monthly community meetings scheduled throughout the 79th Assembly District.

"I schedule and reserve a specific Saturday of each month in order to meet with the members of the Citizens Advisory Council and the Public at different schools throughout the 79th district," Chacon said.

"In this manner, citizens from throughout my district will have an opportunity to meet the members of the council and learn about different state functions, and bring to my attention their concerns or any other special problems they may be having with any state agencies," Chacon added.

Additionally, experts in various fields will speak at different council meetings. In the next few months, individuals knowledgeable in the fields of social security benefits, legal services, senior citizens and consumer affairs will speak to the members of the Advisory Council," Chacon said.

"I sincerely hope that many residents of the 79th Assembly District will take advantage of the opportunity to work with a highly motivated and interested group of fellow citizens who meet each month in order to resolve numerous problems, and thus, insure a better way of life for all citizens," Chacon said.

Holiday Week Quiet At Area Fire Stations

A quiet week including the dry Labor Day weekend was a blessing for local firemen.

Lemon Grove fire officials reported only two small grass fires of no consequence during the week.

In Spring Valley, firemen extinguished five small brush fires, the largest a one-acre blaze on the east side of Dictionary Hill in Rancho San Diego's Sweetwater Village West.

Richard Norman, 1025 La Presa st., Spring Valley suffered $200 damage Friday while draining his water bed. A heating pad underneath the mattress was left plugged in while the bed drained. Water seeped under the mattress, shorted out the pad which set the bed on fire. Spring Valley Fire Department responded to his call.

CB Radio Taken

A CB radio, valued at $225, was taken from the Ford Courier belonging to Albert Underwood, a landscaper, of 7557 Mt. Vernon st., Lemon Grove between 7 p.m. and 4:30 a.m. August 25, he told sheriff's deputies.

Says Law Requires It

Sheriff to Move Prisoners In Probation Jail Take-Over

All prisoners and deputy sheriffs will be removed from the jail one minute after midnight the day (September 19) the jail is removed from the control of the sheriff, according to Sheriff John Duffy.

"I will have no choice but to go by the law as it is, not by what three Supervisors might wish it to be," Duffy said.

"I will firmly believe the jail will remain the responsibility of the sheriff, either through a court decision, new legislation, or the referendum drive now in progress, but if all three fail I must have a plan to continue to carry out my legal responsibilities," he said.

Duffy said all prisoners in the jail have been placed in his custody by the courts and there is no legal method by which he may turn them over to anyone else, leaving San Diego County without a jail.

"If they take away the building, I will have to move them somewhere else," he said, then explained how this would be accomplished.

"The Superior Court will automatically issue an order directing me to transport all present and future prisoners to an adjacent county jail.

"I will take the 108 deputies now assigned to the jail, charter buses, and give them the job of transporting the approximately 1,000 inmates to Santa Ana, Riverside, and El Centro.

Must Obey Law

"Although these three adjacent counties do not have the space, these sheriffs must obey the same state laws as I, and accept prisoners brought to them legally whether they

Slight Enrollment Decline Expected

Back-to-School Days Near For Area

Slight declines in enrollment at both Lemon Grove and Spring Valley schools is expected as children return to classes for the new school year in the next two weeks.

Lemon Grove School District is projecting 3,637 as its enrollment, a decline of nearly 50 students. Superintendent Robert Sutton blames the declining enrollment on the general decrease in the birth rate in recent years but is quick to caution that the enrollment estimate is arbitrary and that enrollment fluxuations of 50 students in a school year is not uncommon.

In the La Mesa-Spring Valley District, Superintendent Jim Runge predicts that at least 12,506 students will be enrolled in regular classes in the fall, a district-wide drop of nearly 1,000 students from last year's peak. The school system had a bulging 13,304 in early spring last year.

Grossmont High School District schools anticipate the return of over 21,000 pupils— 2,500 will attend Monte Vista; another 2,300 Mt. Miguel.

Registration Open

Registration of children enrolling for the first time in elementary and junior high schools in Spring Valley and Lemon Grove is now in progress.

Classes for Lemon Grove school children begin Monday, September 15, while La Mesa-Spring Valley District pupils return four days earlier on Thursday, September 11.

Year-Round School

Exceptions are four year-round schools that are currently in operation in Spring Valley — Bancroft Elementary, La Presa Elementary, Rancho Elementary and La Presa Jr. High.

These schools operate on the standard 45-15 year-round system. The students are divided into quartiles each of which meets for 45 school days followed by a 15 school day (three week) vacation.

The quartiles are staggered so that at least two are attending during any week, except during the two-week Christmas and New Year's Day holiday when all the schools are closed.

Presently, three of the quartiles are in session at these schools. The fourth begins a new session on Wednesday.

New Enrollees

Parents should bring proof of birth date for pupils enrolled in kindergarten in either school district. Transferees in upper grades should furnish evidence of previous enrollment.

Each Lemon Grove school office is open 8 a.m. to 4:30 p.m. daily to accept enrollees and transfer students. Spring Valley elementary and secondary schools are open from 8 a.m. to 3 p.m.

Health Requirements

All kindergarten enrollees

CAPTURED — Four of the five suspects captured in the Labor Day burglary of a Lemon Grove firm are escorted, handcuffed, to waiting patrol cars by Deputies Wayne Pelley and Roy Hood while Sgt. Eldon Carl provides cover. The fourth suspect is hidden behind the center suspect. The fifth suspect, an 18-year old woman, was transported to jail by a matron.

Burglary Suspects Leave Clues Aplenty

By Max Goodwin

Sheriff's deputy Roy Hood had just racked up a record of resolving 12 burglary cases during the past month and he was a man to be reckoned with.

Labor Day morning, at 5:50, he thought he saw the door of the Uniion Sheet Metal Co. at 7890 Lester ave., Lemon Grove, partially open — about two inches. In the early dawn light it could be deceiving.

He radio's for cover and took a look. It was a burglary. Thieves had broken open the door and took nearly everything moveable.

Later, the firm's owner, Ernie Bartley was to confirm a loss of about $10,000 in tools and equipment including two oxy-acetylene tanks, adding machines, a box of advertising pens, a two-wheeled welding cart among other valuables.

Deputies Wayne Pelley and Harold Ross answering the radio, had quickly appeared on the scene and the trio checked cautiously to make certain they would not run into an armed burglar at work. They didn't.

Left Tracks

But they found tracks that led to an apartment complex a couple of hundred feet to the east at 7904 Lester ave. Occupants of two of the four apartments didn't know anything about the matter. Another wasn't home and in the fourth the could hear voices. And to add to the evidence, on the ground in front of the door, were two advertising pens taken from the victim. Sgt. Eldon Carl arrived and he and Pelley entered the apartment. Deputy Harold Ross had arrived and was providing cover.

Five Suspects

They found tools, equipment and personal effects belonging to Union Sheet Metal. They also found four men, 18-20 and a young pregnant woman, 18.

While the suspects were being questioned, Deputies Ross and Hood noting tracks that could have been made by a welding cart, followed them along the asphalt of Lester ave. directly to a Pontiac parked at the apartment complex. In the car's trunk they found the two tanks of acetylene. On the driver's seat was a box of advertising pens with Union

Sup. Chairman Rejects Sheriff's Charges

Jail Service to Improve Under Dept. of Corrections

County Supervisor board chairman Dick Brown, in a prepared statement last week, presented his, and the majority (3-2) of the board's views concerning the ongoing hassle with Sheriff John Duffy concerning the operation of the County Jail.

Elsewhere on this page are articles concerning the staffing of the facility and Sheriff Duffy's opinion of the takeover.

By Supervisor Dick Brown

The recent action of the majority of the Board of Supervisors in transferring control of the County Jail to the new Department of Corrections touched off swift and vocal response from Sheriff John Duffy.

Sheriff Duffy has gone on the attack, employing the tactic of revolutionaries in vowing to change the system by bringing it to a halt.

Instead of going to the courts where there is legitimate opportunity to resolve the question of jail authority, Duffy has used threats of deputy layoffs and transfer of prisoners out of the county. Deputies working in the jail have been instructed not to discuss jail operations with Probation personnel working on the transfer.

He has stated on several occasions that he doesn't feel Probation is competent enough to operate the jail.

I believe the best way to correct much of the misinformation and inaccurate statements which have been made recently by Sheriff Duffy is to deal with them one by one:

Disagreements

Statement: Sheriff Duffy alleges that he will be open to criminal prosecution under Section 142 of the Penal Code if prisoners are not remanded to his custody.

Fact: Section 142 only stipulates that the Sheriff cannot refuse to accept prisoners brought to him. If none are brought to him, which would be the case in the jail authority changeover, he violates no law.

Statement: Sheriff Duffy has declared that he will remove the 108 sworn deputies from the jail on the date the Department of Corrections assumes control, forcing lawoff

Grove Man Denies Bank Robbery

Donald Ray Martin, 46, of 2191 Eldora st., Lemon Grove, claimed innocence to a charge of bank robbery Friday when he was arraigned before U.S. Magistrate E. A. Infante.

Infante set bail at $25,000 and set further proceedings for September 24.

Martin was charged with taking $19,500 in mid-August from the 42nd-El Cajon branch of the Bank of America after he allegedly displayed an unloaded gun to the bank manager and threatening him with it.

The FBI arrestel Martin as he left the bank.

Bomb Scare Fizzles

A telephone call warning Ted Vick, operator of the Shell Station at 7605 Broadway and Buena Vista, fizzled out Tuesday luckily.

Sheriff's detectives Charles Larson and Tom Nelson, responding to the alert said evidence indicated that the call was from a couple of youngsters.

Larson and Nelson tracked them down, discussed the matter with their parents — and Lemon Grove's bomb scare ended the same day it started.

Loses Parking, Too

L.G. Chamber Faces Financial Crisis

Hard financial times have fallen on the Lemon Grove Chamber of Commerce.

At a meeting of the group's board of directors Glenda Jackson, chamber officer manager reported that resources would be $588 in the red by year's end.

The reasons for the shortage are several. One, no carnival was held in connection with Lemon Grove's Old Time Days this year. It usually produced $1,500-$2,000 each year. It was dropped this year because no location for it could be found. Previously, it was held on a parking lot at St. John of the Cross church. That property has since been developed.

President Bob Guest then chose a committee which will come up with a fund-raising project to overcome this shortage. Bob Russell, Max Goodwin and Olin Thompson make up the committee with Russell as chairman.

Incorporation Notes

In other business, Attorney Jim Dorman, chairman of the Lemon Grove Incorporation Committee said that the County Board of Supervisors indicated that the north boundaries of the proposed city would be Highway 94. This is planned so as not to interfere with a La Mesa annexation proceeding planned for the unincorporated Vista La Mesa area north of the highway.

Residents in the south part of Vista La Mesa had shown in a survey that they preferred Lemon Grove to La Mesa. These dissidents should make their determinations known to the Chamber and their objections will be presented to LAFCO (Local Agency Formation Commission).

Trackside

The Chamber also learned that it would lose part of its parking on the west side of the railway tracks for a half-block south from North.

The San Diego, Arizona and Eastern RR, from whom the Chamber holds a lease, has advised the board that a lumber firm will occupy the area. Members visualize a long, extremely skinny facility and questioned whether or not such a development would be allowed without a county building variance.

There are 370 sets of Lemon Grove license plate holders remaining, president Guest said. If these are sold, much of the financial deficit would be absorbed.

Those desiring to participate in any of the ongoing projects of the chamber may contact the office at 469-9621.

Nude Hearing Set

The County Board of Supervisors will hold a public hearing Monday, September 17 to consider public testimony on a proposed form of ordinance declaring public nudity on any beach, park, street, or public place, unlawful and a nuisance in the unincorporated areas of the County.

The hearing will begin at 2 p.m. in Room 358 of the County Administration Center, 1600 Pacific Highway, San Diego.

Mrs. Clark To Operate County Jail

Mrs. Elizabeth Clark, named director of the San Diego County Jail by Kenneth Fare, Chief Probation Officer for the County of San Diego, is scheduled to take over her new duties September 19.

On that date the jail's operations is scheduled to be transferred to the newly formed San Diego County Department of Corrections.

Mrs. Clark is presently probation director of juvenile services. She commenced her service with the County of San Diego in 1950 as a case aide for the Department of Public Welfare. Two years later she was transferred to the Probation Department as a probation officer. During the 23 years there she was involved in a variety of special programs and projects.

Elizabeth Clark

In 1969 she was assigned to the county's first Youth Service Bureau. In 1972 she was appointed coordinator for the San Diego Regional Criminal Justice Planning Department.

In 1974 she returned to the Probation Department as assistant superintendent of Las Colinas (County's girls' facility); after which she was promoted to superintendent of Hillcrest Receiving Home (dependent children housing facility) and then to juvenile services director.

'Spirit Vacuum' Leads to Demonic TM, Speaker Says

One of the world's leading authorities on Biblical prophecy, Hal Lindsey, says the United States is inviting demonic destruction into its midst by its partial embrace of Transcendental Meditation.

Lindsey's four books, including **Satan Is Alive And Well On Plant Earth,** have sold over 14.5 million copies. His best known book, **The Late Great Planet Earth** is about Biblical prophecy and has sold over eight million copies.

Although known primarily as a scholar on prophecy, Lindsey does study other issues. He will discuss them Thursday, September 11 at 7:30 p.m. at the Civic Theatre.

The Maharishi Mahesh Yogi, founder of Transcendental Meditation, is having success in America "because of the spiritual vacuum we have in the United States," Lindsey said.

He said the same holds true for other leaders of Eastern religions.

"By my interpretation of the Scripture, I believe these men operate with demonic power."

He cites several former followers of Eastern religions who have stated they are convinced demonic powers were in control or present during their education as a monk or during major rallies given by followers and leaders of the religions.

"I believe Transcendental Meditation, which has been increasing rapidly in this country, is increasingly dangerous because it opens a person up to being spiritually possessed by demons," Lindsey said.

Lindsey does not dwell primarily on Eastern religions, however. His comments about how the oil crisis and other modern-day problems are leading to fulfillment of specific Biblical prophecies will be part of his presentation.

Tickets are available at local churches, Youth For Christ representatives, KSON studios and Gospel Bible book stores.

Sitter Service For Handicapped Started Here

A grant of $16,418 to the San Diego County Association for the Retarded has enabled that organization to establish a new countywide sitter service for the handicapped.

The service is being implimented in answer to a number of requests by parents for respite care. Appeals have been made to the Association, Friends of Handicapped Children, Los Nino school for Autistic, Deaf/Blind Programs in Spring Valley and Home of Guiding Hands.

Training classes for sitters begin September 15. They will be taught by occupational and physical therapists, teachers, health educators and nurses who will donate their time to the training.

The sitters must be at least 18 years old and show a genuine interest in working with handicapped individuals.

After sitters are selected and trained, the sitter office will act as a referral service, matching sitters with family needs.

Interested families or sitters may call Mrs. Martin, sitter service coordinator, 234-2264.

The service will initially exclude north county areas.

Bazaar Dinner Served With European Flavor

Holy Angels Byzantine church holds its annual bazaar Sunday, September 14, from noon to 7 p.m. A traditional Eastern European dinner featuring stuffed cabbage rolls and the parish specialty, Kolbasi, will be served throughout the day.

Game booths, a raffle and door prizes are features of the affair.

Dinner donation is $3 per adult and $1.50 per child 12 and under.

The church is located at 5154 Hawley blvd.

Turtle Show to Help Save Desert Tortoise

San Diego turtle lovers will meet the public during a two-day exhibit in Balboa Park this weekend.

The county's Turtle and Tortoise Society will highlight the world's chelonian creatures with information on the club and care of turtles and tortoises at the Garden Center of the park's Casa del Prado.

Featured will be a photo exhibit on the California Desert Tortoise Preserve, a 30-square-mile area in the Mojave Desert designed to protect the endangered species.

The club is helping the preserve raise money to erect a fence around the land to protect the animals from off-road vehicles which threaten their survival. On sale will be "Have FAITH" pins—FAITH standing for Fencing Around Ideal Tortoise Habitat.

The club meets the second Friday of each month in Room 104 of Casa del Prado.

Exhibit goers are admitted free.

Big Plant

Georgia planted 82 million trees last year.

WEDDING SATURDAY — Linda Meyer, daughter of Mr. and Mrs. Eldon Meyer, and Daniel Abbott, son of Mr. and Mrs. Ernest Abbott, will exchange vows before Rev. Thomas Rothhaar at Lemon Grove United Methodist church Saturday evening. The bride, bridegroom and parents all reside in Lemon Grove. Mr. Meyer is principal at Monterey Heights Elementary school.

Following a reception in the church's fellowship hall, the couple will depart for a week's honeymoon in the Sequoias.

The bride is a second-year student at San Diego State. The bridegroom is a graduate of State who will attend Claremont School of Theology in preparation for a career in Methodist ministry beginning next semester. The couple will reside in Claremont.

Swim Programs Underway At La Mesa Public Pools

Swimming classes are just starting in La Mesa.

The aquatic division of the city's recreation department are offering the following activities:

Helix Pool, 7323 University — public swimming 12-4 p.m. Tuesday and Thursdays through September 9.

La Mesa Municipal Pool, 5100 Memorial dr. — adult public swimming 11 a.m.-noon daily; all ages — 12-4 p.m. daily and Saturday 7-9 through September 9. Beginning September 10, open 12-1:30 p.m. Monday through Thursdays; Saturdays 12-4 p.m. and 7-9 p.m.; Sundays 12-4 p.m.

Swim lessons for ages 1-5 and adults starting September 15. Registration opens September 8 at the pool office.

Red Cross Advanced Life Saving course starts September 16 at 7 p.m. Pre-registration may be made by phone at 466-4177. The 1975 season includes Swim and Stay Fit programs, and year-round AAAU competitive swimming, diving and water ballet teams.

'Pacific 21' Bows Out

Pacific 21, an exhibition by Pacific rim countries planned as a bicentennial salute next year has been cancelled due to a lack of response from the foreign countries, the Pacific 21 Council announced last week.

The exhibition was to have been held in Century City from June 19 to September 19, 1976.

Area Obituaries

Donald Lewis

Cremation services were held August 21 for Donald Lewis, 61, of 3211 Harris st., Lemon Grove.

Lewis was a chief engineer on a tuna boat.

He died August 19 in Grossmont Hospital.

He is survived by his wife Judith.

Eat and Grow Younger

Life-Giving Protein Termed Man's 'Elixir of Youth'

By Lelord Kordel

Number Two of a Series

Protein is a food element as vital to human life as oxygen. Yet how many persons have more than a nodding acquaintance with the word?

Many people are as mixed up about protein as was a member of an audience in a city where I lectured not long ago. I had worked hard to put over the urgently needed protein message to them, for if ever there were a group of persons who looked as though they needed to know more about the "elixir of youth," it was those tired, haggard, old-looking people who sat before me that night.

And yet I was positive that very few of them had reached any more than their middle 50's. They were still young in years, but even their spirits seemed to have wrinkles.

After I had concluded my lecture and stepped down from the platform, a man approached me — a man as worn and weary-looking as any of the others, despite his well-tailored suit and prosperous appearance.

"I thought you were against drugs," he blurted out, "but you are now talking for protein!"

Protein Not Drug

Despite my repeated stressing throughout the lecture that protein is a food element, this man couldn't get his mind out of the drugstore. Yet, after my first astonishment at his distortion of my message, I began to look at the subject from his viewpoint.

Every few days he is likely to hear the latest word on "miracle drugs" — drugs that are going to permit mankind to live indefinitely, to bestow eternal youth on a pitifully eager human race.

Even certain nutritionists and health teachers are not without their share of blame for pushing protein far into the background in their lectures and books on "how to defer old age." Perhaps there isn't enough so-called drama about commonplace items such as meat, fish, poultry, eggs, cheese, and whole-grain cereals.

On any of these complete proteins, particularly the animal proteins, you can live well and vigorously without ever touching another type of food — and still look forward to the taste joys of meal-time.

Burdensome Task

But just try subsisting for even a short period on nothing but the highly-refined starch and sugar foods and you'll soon come to regard meal-time as a burdensome task rather than a pleasure!

Protein is the safeguard of your youthfulness and good health. It is a preventer of disease, besides being one of the best medicines for numerous human ills. And here is what I consider the real nutrition miracle:

All the while that protein is safeguarding your youth and good health, preventing disease or curing you of an existing ailment, it is also nourishing your body with highly palatable, good-tasting food.

Nutrition teaches us that all foods are divided into four main classes: Proteins, carbohydrates (sugars and starches), fats and water. Thus we establish that protein is a food, not a drug.

Protein is the basic raw material of all life, either plant or animal. The word protein is derived from the Greek verb meaning "I come first."

Protein is stored by nature only in living tissue, and in places where it is essential for development of new life — in the embryo of eggs, in milk needed to nourish the young and in the seeds of plants.

Protein Chart

Here is a little chart to help you remember where to look for protein foods:

1. Living tissue — meat, fowl, fish.
2. Eggs and milk — intended to nourish newborn life.
3. Seeds of plants in their natural state — cereal and seed grains, nuts, legumes.

Protein is the chief building material of your body. If you were to analyze a single cell taken from any part of your body — a hair in your head, the tissue in your heart, the lining of your intestines, the muscles in your legs — you would find this tiny cell composed chiefly of protein.

And, like the parts of any constantly operated, non-resting machine, your body cells are continually wearing out, needing repairs or replacements.

So what are you going to do? Patch up our protein body cells with carbohydrates? Just try patching a rubber tire on your car with flour and water paste, and see how far you'll get!

Human Machine

The perpetual-motion human machine must have abundant protein every day to repair, replace and renew worn out cells in every part of your body.

When you don't supply enough high-protein foods in your daily diet to make certain that these vitally needed cell repairs and replacements can go on without interruption, you're inviting old age to take over.

In the laboratories, nutritional scientist and biochemists have proved that diet poor in proteins hastens aging in the human body.

I could cite case after case of elderly persons, weakend by tea-and-toast diets, who have been restored to usefulness by gradually converting their meals to high-protein foods. Their weakened bodies gained new vigor, and their minds become keen and alert once more.

Nobody who has witnessed these recoveries, as I have, could ever deny that protein foods are truly nutritional wonders.

Next: "Grip on Youth" slipped with protein-poor diet; Lelord Kordel fixed it in one month. How budget cutters sometimes sacrifice health benefits.

Coronado Reception Planned For Assemblyman Peter Chacon

A champagne reception in honor of Assemblyman Pete Chacon (D-San Diego) will be held on Saturday at 4 p.m. The buffet reception will be held in the Coronado Cays Bahama Village Clubhouse, which is located at 43½ Catspaw Cape. Chacon represents Lemon Grove and Spring Valley in the Assembly.

Assemblyman Chacon, along with Ms. Helen Diaz, chairman of the event, will recognize outstanding bilingual administrators in San Diego County.

Other special guests include Dr. Thomas Goodman, Superintendent of Schools; Dr. Tom Arciniega, Dean of the School of Education at San Diego State U.; Dr. Reyes Mazon; and Dr. Paul Juarez. Also attending will be Tetsuyo Kashima, Ms. Patricia Panewek, Cliff Mendoza, and Dr. Gil Guzman.

The Honorary Chairpersons for the reception include United States Senators Alan Cranston and John V. Tunney, Congressman Lionel Van Deerlin, Senator James R. Mills, Assemblymen Wadie Deddeh, Lawrence Kapiloff, Bob Wilson, Thomas Suitt, San Diego County Supervisor Jim Bates, City of Coronado Councilman Pat Callahan, City of San Diego Councilmen Jess Haro and Leon Williams.

The afternoon reception will share a wide variety of authenic Mexican cuisine and several excellent musical groups to serenade the guests.

The public is invited to attend one of San Diego's more outstanding and singular events of the year. For reservations call 427-6061 or 453-3147.

Bobby Kennedy Jr. in Ch. 39 September 6 Show

Robert F. "Bobby" Kennedy. Jr., hosts and appears in all action sequences (no stunt men were used at his request) in "The Last Frontier", an exciting TV special filmed entirely on location in Kenya. The special will be aired Friday, September 6 at 8 p.m. on 39TV.

Young Kennedy's interest in ecology and his frequent visits and knowledge of the tribes and wildlife in Africa made him the choice for hosting and narrating the one-hour program.

Executive Producer of the special is emmy award-winner Roger Ailes, a former Executive Producer of the Mike Douglas Show as well as several documentary and entertainment specials.

Men, Women & Cat Sought for Cast of Community Plays

Associated Community Theatres have announced tryouts for two plays to be presented in November.

Five women, ages 16-55, four men, ages 22-55, and a "somewhat feeble" cat are sought for the production of Ruth Gordon's "Years Ago" to be presented by the Alpha Omega Players in San Diego. Tryouts will be held at the Players Hall, 1531 Tyler ave. Tuesday and Wednesday 7:30 to 9:30 p.m.

The play is scheduled to premiere October 31 with a run through November 22.

The South Bay Players will hold auditions for "Miss Pell is Missing," a comedy by George Gershe, on Sunday September 14, 2 p.m., and Tuesday, September 16, 7:30 p.m.

Parts for four men, ages 25 and over, and three women, ages 20 and over, are sought. Auditions are held at Kimball Park Hall, 140 E. 12 st. in National City. The play will be presented November 14-29.

Jamul Chaparros Install Officers

Officers were installed at the Tuesday meeting of the Jamul Chaparros 4-H Club. New president is Dan Westermeyer.

Other officers include Paula Davis, vice president; Theresa Nierodzinski, secretary; Gay Nierodzinski, treasurer; John Orsingher, reporter; Robin Roberts, supplies officer; Lynn Phelps, historian; Alan Freeman, parliamentarian; Greg Westermeyer, recreation and Jimmy Orsingher and Cindy Emerson, song leaders.

A special agenda item was a report of the State Leadership Conference at Santa Barbara where Theresa Nierodzinski was one of five in the state to receive the Diamond Star award, the highest honor conferred by the club.

Mesa Jewel Branch Schedules Meeting

The Advancement Club of the Mesa Jewel Rebekah Lodge will meet Thursday, September 11 at the home of Mrs. Daisy Beatty, 1103 Osage dr., Spring Valley.

President Mrs. Fern Korab will preside at the business meeting and games will follow.

Meeting begins at 7:30 p.m.

Past Grands Schedule Pot-Luck Next Week

The Past Noble Grands Association of District 54 of the Rebekah degree holds its regular monthly pot-luck luncheon Friday, September 12 at noon.

Members are invited to bring hot dishes and salad to Colina de Sol Recreation Center, 5319 Orange ave., San Diego.

Mrs. Edna Redding presides at the meeting.

VFW Auxiliary Grants $15,000 to Fight Cancer

Ladies of the First District Veterans of Foreign Wars which comprises the 30 auxiliaries of San Diego County, made a $15,000 grant to fight cancer.

California Cancer Center. $5,000 went to the American Cancer Society. The grants raised VFW Auxiliaries allocations to cancer to $90,000.

The awards were made at the VFW National Convention in Los Angeles.

N. Dakota Picnic Planned

The annual North Dakota picnic will be held Sunday at San Dieguito Park near Solana Beach starting at 10 a.m.

Those driving up should get off Highway 5 at the Lomas Santa Fe ramp.

The public is invited and all participants should bring their own lunch. To contact those in charge call 235-6221 or 276-1065.

Rock Sale Slated

Purple fluorite, highly polished Brazilian agate, aquamarine and emeralds will be among items for sale at the Natural History Museum during its first-of-the-month rock sale Sunday.

The specimens will be available on tables in the museum's main lobby from 10 a.m. to 4:30 p.m.

Area Births

The following is a list of area births recently recorded at Grossmont Hospital:

August 16

Mr. and Mrs. Samuel J. Frazier, III, Spring Valley, a boy, Scott Robert.

August 18

Mr. and Mrs. Gerald J. Dorland, Lemon Grove, a boy, Brian Travis.

Mr. and Mrs. Rodney A. Mahon, Lemon Grove, a girl, Trisha Lee.

Jewish Aid

Jewish Family Service, a United Way funded agency, conducted 338 interviews in 1974 with residents of Lemon Grove and Spring Valley who had personal problems.

Sunday SERVICES

First Corinthians 2:9

But as it is written, Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love him.

Behind-the-Scenes Look At Opera in New Series

A roster of internationally-noted opera experts are featured in thet new "Opera Town Hall Interpretation Series" of the San Diego Opera.

Natalie Limonick, Director of Opera Theatre and Professor of Music at the University of Southern California will explore the mystery of gypsy witchcraft in "Il Trovatore" during a dessert party at the House of Hospitality in Balboa Park on September 29, 7:30 p.m.

Mrs. Limonick, a distinguished vocal coach, accompanist, opera director and frequent guest lecturer will unravel the magic of the opera with the help of talented young singers who will perform highlights from "Il Trovatore."

Dr. Jan Popper, an international authority on opera and a favorite of the Town Hall Lecture Series, will return to San Diego again this year and present highlights of "Rusalka." Popper, who conducted Dvorak's "Rusalka" in his native Czechoslovakia, will direct singers in several of the opera's arias and duets. The preview is held at the House of Hospitality November 24.

Other series features include a "Production Panel" moderated by noted San Diego director of opera and theater William Reosch; a lecture by opera translator Walter Ducloux; and Henry Holt, music and education director of the Seattle Opera, lecturing on the beauty in "Norma."

The series supports Youth Opera Education, a project enabling county students to attend special opera performances.

A strip of five tickets, which are undated and can be used for any of the lectures, is $10. Individual tickets can be purchased for $2.50.

Brochures are sent from the San Diego Opera Office, 232-7636.

Class Prepares Aliens For U.S. Citizenship

A fall semester class for aliens interested in becoming American citizens by naturalization is planned at Mt. Miguel Adult School.

The class will meet for opening session on Wednesday, 7 p.m. in Room 780 at the high school located at 1800 Sweetwater rd., Spring Valley.

Besides preparing for the naturalization examination through the study of the government, history and heritage of the United States, students will also have an opportunity to use and improve written and oral English skills in an informal group.

There is no charge for the class, books or materials. New students may enter the class at any time.

Blue Bricks

Bricks in the streets of old San Juan are blue.

Car Wash, Booth Is Youth Project

The Junior Committee of the Lemon Grove VFW Teen Dance organization will be held tonight at 7 in the lounge of the VFW Hall at 2885 Imperial ave.

A car wash and a booth for the VFW Auxiliary — both on November 1 — will be discussed. The discotheque leader, Art Spencer, will be present to discuss the September 26 dance program.

Dick Bales, youth program chairman, will report on his meeting with the Lemon Grove Chamber of Commerce last Thursday where he asked for more participation among the business and professional groups.

Later, he released the names of the youngsters who won door prizes at the August 29 dance. John Keetch won two shrimp dinners at Pal's Cafe; Edith Wiley won certificates at Jack in the Box and Darrell Osborne won a savings bond given by VFW member Jack Martin.

Xi Beta New Year

Xi Beta Xi chapter of Beta Sigma Phi sorority holds its first business meeting of the new year Tuesday at 8 p.m.

The meeting is hosted by Pat Ferbe, 1408 Meadow rd., El Cajon. The hostess provides refreshments.

High Hunting Costs

A person convicted of hunting in a national park may be sentenced to 6 months in prison and fined up to $500.

Back to School Days Near

Continued from Page 1

in both districts require a physical examination and certain health information to finalize admission.

Both districts require verification of immunization against polio, measles, diphtheria, whooping cough and tetanus. Both oral and Salk vaccines are acceptable polio inoculations for registration. Excluding parents who are adverse to the polio law, polio inoculations are mandatory. Similar exemption may be obtained for the measles vaccination.

Children who have not received inoculations or vaccinations before entering school are given a two-week grace period in order to do so.

Preschool programs are offered by both districts to children of families with limited incomes.

In Lemon Grove, a state funded pre-school program at San Altos Elementary services the needs of the entire district. Bus transportation is provided.

Parents' income per family size determines a child's eligibility in the program designed for families already on the Aid to Dependent Children program. A one-parent, one-child family earning $4800 or less qualifies as does a 10-person family earning $12,000 or less, according to Jim Justeson, assistant superintendent of instruction and personnel. The income eligibility scale varies between those two figures, he said.

In addition to income eligibility requirements, children must be at least three years and nine months old.

Parents interested in the Lemon Grove pre-school program should call 466-0436.

Two Programs in SV

The La Mesa-Spring Valley District provides both a pre-school program and a child-care center, both open to parents with income limits.

Preschool class — an enrichment program for children from 3 years, 6 months to kindergarten age — is held at Bancroft and Avondale schools in Spring Valley. Classes, limited in size to 15 pupils in each school. are held from 8:30 to 11:50 a.m. daily.

Classes are a basic orientation to kindergarten and include morning snack and lunch. Parents are invited to accompany children during class, according to Darlene Widmer, head of the pre-school.

The child care center is a daycare facility located at the District's La Mesa headquarters. Eligible are children two years old to kindergarten age whose parents, in addition to having satisfied income eligibility requirements, have jobs or are employed in an employment training program.

The day-care program runs from 7 a.m. to 6 p.m. The program is full at present, but a waiting list is maintained and openings appear frequently, according to the pre-school head.

Spring Valley parents should contact the La Mesa-Spring Valley Pre-School Office to establish eligibility. The number is 469-6171, Ext. 17.

New Clinic

Parents uncertain about immunization requirements would benefit from attending a special child health conferencet and clinic offered at Bancroft Elementary, 8805 Tyler st., in Spring Valley.

The monthly sessions provided by the County Department of Public Health, will be held the second Wednesday of each month at the school from 1 to 4 p.m. beginning September 10.

The sessions, according to Dr. Donald Ramras, acting director of public health, will provide new school children with immunizations required for school admission. Physical examinations for infants and preschool children will also be available.

The clinic will be open to children of all ages on a first-come, first-served basis.

The child health conference is open to children under six who have no regular family physician. Youngsters are checked for normal growth and development through an examination and lab tests.

Appointments are necessary for the conference and may be made through the East San Diego Health Center by calling 582-6433.

TV Courses for Credit Offered at Grossmont

Grossmont College offers five courses for credit on local television channels during the coming fall semester. Three of the courses, "The Ascent of Man", "Law for the 70's' and "Property Management', are repeats offered because of their popularity. "Contemporary California Issues" and "Classic Theatre" will be aired for the first time.

"The Ascent of Man' is broadcast over KPBS at 9 p.m. Tuesdays, beginning September 23. Four special broadcasts of interviews with Jacob Bronowski will be aired at 6:30 a.m., September 9, 11, 15 and 18. These programs will be repeated at noon September 13 and 20. The first campus meeting for this course will be at 7 p.m. Friday.

"Law for the 70's" is broadcast on KGTV at 6:25 a.m. Wednesday. The program began yesterday, but the first campus meeting isn't until October 4.

The real estate course, "Property Management." is also broadcast on KGTV commencing today at 6:25 a.m. The first campus meeting is October 3.

"Contemporary California Issues" is another KPBS production aired at 6:30 a.m. and 6:30: p.m. beginning Tuesday September 23. Campus class meets Friday, September 12.

The humanities in drama are explored in "Classic Theatre" Thursdays at 8:30 on KPBS. Class meets Saturday, September 13.

A brochure with complete information on programs, campus class meetings and enrollment procedures may be obtained by calling the Dean of Arts, Grossmont College, 465-1700, Ext. 386.

Zoo Autumn Hours Start

The San Diego Zoo and Wild Animal Park pulls in the welcome mats an hour earlier effective this week, the start of the autumn operating schedule.

Gates close at 5 p.m., an hour earlier.

The Zoo and Wild Animal Park open at 9 a.m. daily.

School Days are Here Again! School Days are Here Again! School Days are Here Again!

Aztecs Open Grid Season Saturday Against El Paso

For the second season in a row S.D. State U. will open the football season against a team from the Western Athletic Conference. Last year it was the U. of Arizona in Tucson, and this week, on Saturday, the Aztecs' season will open against Texas (El Paso) at 7:30 p.m. in San Diego Stadium.

The game, which is also the season opener for El Paso, is T-Shirt Night with San Diego State and Jack-In-The-Box giving away 10,000 T-Shirts to children 12 and under at the game. The children must be accompanied by an adult.

The Aztecs and Miners met last season in El Paso with San Diego State taking a 26-12 decision. The Aztecs rolled up 417 yards total offense in the game with 301 of those coming on the ground.

Penrose Starts

Craig Penrose will start at quarterback Saturday night along with Monty Reedy and Bill Fudge in the Backfield. Gary Pierson and Mel Jacobs will open at the wide receivers with Vollon Dixon at right end.

Jim Chandler will start at left tackle, Jay Ledbetter left guard, Alex Cota at right tackle, Charlie Wortisko at right guard and Bob Johnson at center.

Defensively, coach Claude Gilbert is expected to start Marv Brown at right end, Reggie Lewis at left end and Mike Gilbert at nose tackle.

The linebackers will be Walt Justice, Whip Walton on the weak side and Travis Hitt and Mau Kalati on the strong side. Gary Marshall and Ken Hinton will be the corners. Kevin Feeney and Ed Kertel the safeties.

El Paso was 4-7 last season and returns 24 lettermen from that team. Bobby McKinley is back at quarterback. He rushed for 260 yards and passed for 1512 last year. He scored both Miner touchdowns against the Aztecs in last season's game.

Also back are No. 2 rusher Ray Holt (439 yards) and No. 3 rusher Tanny Johnson (283 yards). No. 2 receiver Art Belvin, who caught 15 passes for 286 yards is also back.

"We've had three weeks of great practices," Gilbert said, "and we're really looking forward to this opening game. I think we have what it takes to have a very good football team. We have tremendous talent and the team spirit is very high."

The Aztecs are 29-20-3 in season openers and 10-3-1 since 1961. The team is 1-1 in season openers under Gilbert.

Aztec Hoopsters Book UCLA Here

S.D. State U. has always endeavored to play the best competition in all sports.

The Aztec basketball team will get the first chance at playing the best as State Athletic Director Ken Karr announced the team will meet UCLA on December 15, in Pauley Pavilion. The Aztecs are already scheduled to meet the NCAA Champion Bruins in the opening game of the 1976-77 season, but a new NCAA rule allowing the addition of a 27th basketball game allowed the scheduling of this year's game.

"We're fired up about getting the chance to play the Bruins this season," said Aztec coach Tim Vezie. "With Steve Copp, Will Connelly, Bob Kovach and the other players back, we could give the Bruins a game. Of course it's great to play the best and it's great that our players will get a chance to play before the Los Angeles media and fans."

The game will be the sixth game of the season for the Aztecs and the sixth in a row on the road. S.D. State opens the season with road games against Washington State and Idaho State. The second road trip of the season takes the Aztecs to Purdue, the Utah Classic which includes Utah, Nevada (Reno) and U. of Denver. UCLA is fourth game of that road trip.

Chargers vs. Pats Sunday; Home Next Week for Vikes

The Chargers return home next week to play their final preseason game on Saturday. Their opponents will be the Minnesota Vikings — an awesome aggregation which beat Miami Monday 20-7 after easing up.

But Prothro's lads will be engaged away from home this Sunday by the New England Patriots in Foxboro, Massachusetts.

Kickoff is at 5 p.m. The game will be televised by ch. 39 by Mike Smith and Dave Campbell. Andy Musser and Dick Van Raaphorst will air it by radio on KSDO.

The Chargers, beset by injuries in the offensive line, have scored only 36 points in winning one game of four. New England isn't much better with its 2-2 record, but there is quarterback Jim Plunkett and running backs Mack Herron and Sam Cunningham.

Last Week

Despite a strong defensive performance, San Diego succumbed to the St. Louis Cardinals, 14-9, before 37,468 at Busch Stadium last Saturday night.

The Cardinals won on a touchdown in the last 29 seconds.

San Diego limited Jim Hart, top quarterback in the NFC last year to 18-of-41 completions for 168 yards.

Playing without tackles Russ Washington and Terry Owens and center Ed Flanagan and using other starters sparingly, the Chargers could not get their offense untracked. Their points came on field goals by Ray Wersching of 44, 39 and 38 yards.

Said Coach Prothro, "I thought we played pretty good considering all the people who played. I was pleased with the way we hit on defense and the way we played pass defense. Considering the rush they were getting, I thought our quarterbacks performed well."

Heading into 1975, San Diego's objective was to strengthen a defense which ranked last in the NFL last year. After limiting San Francisio to seven points and St. Louis to 14 in their last two games, Charger players feel the defense is achieving its mission.

"I thought our entire defensive team played exceptionally well against a team which has a lot of horses," said Joe Beauchamp after the game at St. Louis.

"If we keep playing like that, we are going to have one of the best defensive clubs in the league," said Coy Bacon.

"We're coming together, the young ones and the old ones," said Dave Rowe. "We've got plenty of hustle and enthusiasm. We showed tonight we can play good defense."

Quarterbacks Aplenty

At the start of the week, the Chargers had four quarterbacks on their roster — Dan Fouts, Jesse Freitas, Virgil Carter, Neal Jeffrey — and four other players, who were quarterbacks in college — Don Woods, New Mexico; Harrison Davis, Virginia; George Amundson, Iowa State; Marlin Briscoe, Omaha.

Briscoe also played quarterback for the Denver Broncos. As a rookie in 1968, he had his best game by throwing for three touchdowns against the Chargers at San Diego.

The Tommy Prothro television show will debut on KCST-39 on Monday, Sept. 8, at 9 p.m. The half-hour show will be seen every Monday night following the ABC television game. The Charger coach will be joined by KCST sports director Mike Smith and field questions from a studio audience. Tom Cetersky is the producer.

Mariners Sign Rivers To Multi-Year Contract

Wayne Rivers, last year's highest scoring right winger in the World Hockey Assn. and a first team all-star selection by the Hockey News, has agreed to terms of a multi-year pact with the San Diego Mariners.

"The contract talk is over and now I'm ready to play," said the quiet spoken Rivers.

"Wayne is a sure goal scorer and I'm really happy to have him back," commented Mariner general manager-coach Ron Ingram.

54 Goals

Rivers, who poured in 54 goals and had 53 assists for 107 points in 1974-75, sixth best in the league, is the final member of last season's San Diego team to reach contract terms.

Working with center Andre Lacroix and left winger Rick Sentes, Rivers was part of the WHA's second highest scoring line. The trio amassed 399 points, with Lacroix accounting for 147 and earning the league crown, Rivers 107 and Sentes 85.

Rivers was one of only seven players to tally 100 or more points in 1974-75 and one of five 50-goal producers in the WHA. His 54 goals was second only to Winnipeg's Bobby Hull and his total included six game-winning goals, 13 power play markers and two three-goal hat tricks.

Overtime Goal

His overtime goal to beat AVCO Cup champion Houston, January 18, was one of the season highlights for a team that had been almost unanimously picked for last place in the league's Western Division.

Ingram credited Rivers' efforts as a major reason the Mariners won nine and tied one of their last eleven games to finish second and eventually moved to the semi-final playoff round.

Rivers' signing will end a four-month stalemate between the 33-year-old winger and the Mariners. Although terms and length of the pact were not announced, it obviously puts him among the team's highest paid skaters.

Hageman Beats McIntyre At Cajon Speedway Race

Pat McIntyre, the Spring Valley contractor, suffered a rear right cut tire early in the going Saturday at Cajon Speedway, and had to back off and finished fifth.

By finishing fifth, McIntyre widened his point lead over Tim Biggers of El Cajon to 385 with only five regular season races left.

Larry Hageman of Lakeside won the event picking up his second win of the year in the Labor Day holiday 75-lapper. The standings:

	points
Pat McIntyre	2785
Tim Biggers	2450
L. Hageman	1775
Ron Esau	1605
G. Crossland	1370
Mark Stahl	1310
Ed Thompson	1300
G. Beecraft	1120
Ralph Dineen	1115
L. Aufdengarten	1025

Other main event winners are Jim Hitt and John Dineen.

In addition to the regular schedule of stock cars, the Powder Puffers return for a 10-lap race.

Class Takes Serious Look at Country Music

Country music buffs can now engage in a serious study of this slice of American culture in a UCSD extension course beginning this month.

Lou Curtiss, president of the San Diego Friends of Old-Time Music and chairman of the annual San Diego State University Folk Festival, will teach "From String Bands to Bluegrass," a comprehensive review of country music's history which dates back to the 40's.

Students will listen to rare 78 r.p.m. records during class sessions. Curtiss also plans to include slide presentations, films and live music in the instruction.

The class will meet from 7 to 9:45 p.m. for ten weeks on the Revelle Campus. Enrollment fee is $54. Class starts September 22.

Clinical Evaluation

Lemon Grove and Spring Valley residents received 1,319 clinical evaluations, speech therapy and hearing education sessions in 1974 from the United Way funded agency, San Diego Speech & Hearing Center.

Last Six Days for Riches

Del Mar Closes Track Season Wed.

An event of championship significance is in prospect Sunday when the $50,000-added Ramona Handicap is presented as the climactic race of the final full week's racing of the 1975 Del Mar season.

The 43-day summer session, most successful in Del Mar history, will end Wednesday, September 10 with the running of the estimated $100,000 Del Mar Futurity.

The Ramona Handicap, which is contested at a mile and one-eighth on the grass, will bring out a brilliant field of fillies and mares, including contenders for national honors.

Chilean-bred Tizna won the 1974 Ramona Handicap, nosing out B. J. Ridder's Modus Vivendi in a thrilling stretch battle. Both Tizna and Modus Vivendi will be back in action Sunday in the Ramona 'Cap, but they will be confronted by an upstart three-year-old filly, Nicosia.

In a recent allowance race designed as a prep for the Ramona, Nicosia, under Bill Shoemaker convincingly defeated both Tizna and Modus Vivendi, leading from wire-to-wire, and setting a course record of 1:41 4/5 for a mile and one-sixteenth on turf. A top-class filly, the daughter of Gallant Romeo captured the Hollywood Oaks previously.

The Ramona Handicap also figures to attract Argentina-bred Dulcia, heroine of the Vanity Handicap at Hollywood Park this summer.

Candidates for Saturday's Rancho Bernardo Handicap are Impressive Style, winner of the race a year ago; Miss Tokyo, who showed a return to her best form in a recent victory, and Miss Musket.

Sheriff to Move Prisoners

Continued from Page 1

have the room or not. The law does not permit us to transport to any other county, only those which are adjacent," Duffy said.

That would remove all the inmates in the jail at the time of a takeover. A continuing bussing program would be necessary on a 24-hour basis.

"Police officers, highway patrolmen and my deputies have no choice under the law but to bring their prisoners to the sheriff. They cannot, as some Supervisors seem to think, relinquish custody to a probation officer or corrections officer. The law does not provide for that.

"Supervisor Brown has brushed aside these legal problems, referring to the state laws and statutes as "technicalities.' I don't take state laws that lightly and I know the difficulties in getting all those laws changed by the legislature," Duffy said.

Duffy said that all the extra expense for buses, transportation officers, and costs incurred by the adjacent counties will have to be paid by the County of San Diego — "which quickly translates to the taxpayers."

Empty Building

"Should all this come to pass, the Adult Detention Center, as the Board has renamed the jail, would be an empty building with no one in it except the people assigned to operate it. It would be in the same category as one of the honor camps, work furlough centers, or other detention facilities operated by the probation department.

"They would get their inmates in the same manner as these present facilities. That is, a Classification Committee appointed by the sheriff, will screen sentenced prisoners in the custody of the sheriff and recommend which ones will be sent there for rehabilitation. That procedure is all established by state law and the Supervisors have no authority to preempt the state law," he explained.

"During all this time the new Adult Detention Center commander and her personnel would have plenty of time to train and learn how to operate the facility as inmates trickle in," Duffy said in explaining why he has refused to turn over security information and train prospective correction officers for the proposed changeover.

Food, Medicine, Clothing

Salvation Army Welfare Department, a United Way funded agency, assisted 413 families and individuals in Spring Valley and Lemon Grove in 1974 with food, medi-

British actor Rex Harrison has been married five times.

TV Specialist Added to Staff Of United Way

SAN DIEGO — Appointment of Janet S. Rogers as radio-television information specialist in United Way of San Diego County's communications department was announced.

Miss Rogers, a lifelong resident of San Diego and a graduate of San Diego State U., formerly was public relations manager for Sea World, Inc., Mission Bay.

United Way, which kicks off its 1975 combined campaign with Chad (Combined Health Agencies Drive) September 8, is the central planning and funding organization for 90 human care agencies throughout San Diego County.

In her new position, she will be responsible for audio-visual programs and aids as well as broadcast media relations, and will work also in the area of special events.

"Miss Rogers has received numerous awards for writing and photograph accomplishments, as well as audio-visual productions and other public information programs. All of this background will be put to effective use in behalf of United Way's agencies and their services," said Donald L. Morgan, executive director of United Way.

In addition to her Sea World post, Miss Rogers has held positions with Frye & Smith, serving as an editor, and with the San Diego Evening Tribune as a city desk assistant. She began her career in communications in 1961 as a staff reporter for the El Cajon Valley News, now the Daily Californian.

She is a member of Women in Communications, the Public Relations Club of San Diego and the Press Club. She currently serves as president of the International Assn. of Business Communication and is on the board of directors of Mission Bay Associates.

Defamation Suits Planned by PORAC

SACRAMENTO— Bill Bean, State President, Peace Officers Research Assn. of California (P.O.R.A.C.), a group of 233 organized full-time peace officer associations with individual membership near 18,000 said that the lawmen's group is going on the offensive against those who defame, libel, slander or otherwise injure the individual peace officer in the street.

"We're just damned tired of people who take cheap shots or injure the peace officer in his role as protector of the community," Bean said. "Officers are killed, injured or maimed for life, their families threatened and the children harrassed in the schools: This is going to stop."

P.O.R.A.C. presently has a group legal defense fund for participating member associations. The fiscal resources in this fund are quite healthy, Bean said. The fund presently defends ah officer in any civil, criminal or departmental action taken against him, in the course and scope of his employment as a peace officer. The inclusion of the affirmative lawsuit will be an additional area of coverage.

Lawsuits filed will be carefully selected and pre-screened to protect the rights the officer and his family. Suits will not be filed merely for harrassment of the public.

Park Director Reports Rise in Dog Bites

Your big, friendly dog may become a big mean dog in the unfamiliar surroundings of a park campground. So say the state park rangers.

State Parks and Recreation Director Herbert Rhodes says reports of dog bites in state parks are increasing, and when a dog that has bitten someone can't be located the bitten person must undergo a painful series of inoculations against rabies.

Three State Park Systems rules are intended to eliminate dog bite and rabies scares in parks.

Dog owners must be able to show park rangers proof that their pet has a valid rabies inoculation. Proof may consist of a valid dog license issued in California or a certificate of rabies inoculation. Dogs 5 months or older must be inoculated.

Dogs must be confined in a vehicle or on a leash no more than six feet long and under the immediate control of a person.

Dogs are forbidden on any trails that extend beyond the limits of campgrounds, picnic areas or other areas with public facilities and they are not permitted in any park building.

Fishing Days Over

Joseph Kern, 89, of 1200 Grand ave., Spring Valley retired years ago to spend his days fishing.

A thief changed that on August 24.

Someone took all of his fishing gear from the porch of his mobilehome during the night while he was asleep.

Three poles, two reels, an ice chest and other fishing necessities, all valued at $115 are gone, he told sheriff men.

Ship Reunion Planned

The 18th annual reunion of the U.S.S. New Mexico will be held October 3 and 4 at the Bahia Motor Hotel in San Diego.

Sailors and marines who served on the "Queen of the Seas", their wives, family and friends are invited to the festivities.

Registration and social begin on the 4th. In the evening The Swing Shift provides music for dancing.

Shipmen should report plans to attend to A. P. Lofurno, 264-5102.

Burglary Clues Aplenty

Continued from Page 1

Sheet Metal printed on them.

A check was run on the Pontiac's ownership. The name of the owner was Tejada. Francesco Preciado Tejada was one of the suspects being questioned inside the apartment by Carl and Pelley!

Gives the Word

Deputy Ross joined the officers in the apartment and gave them the word. The word was that there was now enough evidence to make a formal charge. The quintet was arrested.

The suspects had done a pretty good job of implicating themselves.

Charged with first degree burglary and possession of stolen property were Francesco Preciado Tejeda, 20; Guy Anthony Vigil, 18; Katherine Mary Ward, 18; Marco Andrew Rodriguez, 18, and Gegorie Gonzales, 22. The Lemon Grove apartment was in Kathy's name. The men were from elsewhere.

Deputy Hood, his shift now being long since over, got back into his patrol car, yawned, marked up burglary no. 13, and signed out for the day.

The five will be arraigned in El Cajon Municipal Court.

Simmons to Head County Air Control

Charles William Simmons, 39, has been appointed director of the County's Department of Air Pollution Control by a three to one vote of the County Board of Supervisors. Simmons is presently executive officer of the California Air Resources Board; a position he has held since December, 1973. He begins his job with the County September 10.

Supervisors Dick Brown, Lou Conde, and Lee Taylor voted in favor of his appointment and Supervisor Jim Bates voted against. Supervisor Jack Walsh was not present at the meeting.

Simmons has also served as staff counsel for the Air Resources Board. He has also worked as an associate attorney in general business and real estate practice and as a research attorney for the California Court of Appeal.

The Department of Air Pollution Control is responsible for controlling stationary sources of air pollution.

The Department maintains a network of eight air monitoring stations which measure the County's air quality on a daily basis.

Department personnel patrol the County to detect possible air pollution violations and investigate pollution-related complaints.

Alistair Cooke's Series on TV 6

Channel 6 will salute the nation's bicentennial beginning Sept. 14 for 26 weeks when it presents Alistair Cooke's Emmy Award-winning "America" series on Sundays 7:30-8 p.m.

Co-produced by the BBC and Time/Life, "America" also captured a 1973 George Foster Peabody Award for excellence in programming, adding to the four Emmys it won in the same year.

Host Alistair Cooke describes "America" as a personal history of the United States and uses a blend of historical paintings and contemporary footage to chronicle the first of the Mohicans to the last of the hippies.

Arruza, Jr., On Horseback, Faces Bulls Sunday

Young Carlos Arruza, son of the great matador of that name, will make his Tijuana debut Sunday at the bullring by the sea, Plaza Monumental de Tijuana, at 4 p.m.

Arruza and the other three matadors will perform from horseback.

With him will be ace rejoneador Gaston Santos, Portuguese star Pedro Louceiro, and another youngster, Jorge Hernandez Andres.

They will face six wild bulls of Casa Blanca, owned by Major Salvador Lopez Hurado, builder and owner of the 22,000-seat seaside arena.

This type of corrida is known as a rejoneada, and the bulls' horns are blunted slightly to help protect the horses. But these horses are highly trained and expertly ridden, and seldom is one harmed.

Each rider usually uses four mounts in various stages to place punishment lances, banderillas, and sword. Picadors are not used. And if the equestrian has trouble killing he dismounts to finish, or he permits a novillero to handle the final phase.

The only previous times such a corrida was staged in Tijuana were Aug. 18, 1974, and July 8, 1973. They were well received. Santos, however, performs frequently in Tijuana in a corrida of three men on foot, and the other horseback matadors fight there occasionally.

Carlos, Senior

Arruza's father, one of the greastest and most popular toreros of all time, was killed in a car-truck accident May 20, 1966, near Mexico City. He had been fighting as a rejoneador for several years and at the age of 46 was still being acclaimed throughout the world, as he had been during his cyclonic career in a suit of lights.

The matador's two sons are Carlos, who fights only from horseback, and Manolo, who performs only on the ground, in the suit of lights. Both have competed extensively throughout Spain and Mexico since 1972.

Carlos suffered a critical injury last summer in Portugal when a bull spilled his horse, dumping Arruza, and the horse kicked him in the head. His mother, Maricarmen, and his stepfather, matador Manuel Capetillo, rushed to Lisbon and soon brought him back to Mexico City for extensive treatment.

He had been performing in Portugal again this summer until political strife there made in inadvisable to continue.

Casa Blanca, located on the Chihuahua desert south of Juarez, produces some of the fiercest and sturdiest bulls in Mexico. Many matadors refuse to face them because they are so strong and fast.

Sports Participants To Be Seen at 'Animo'

Mt. Miguel High school's third annual "Animo" (Spirit Night) is scheduled for Monday 6:30-9:30 at the school's football stadium.

Participants in the fall sports program will be introduced along with cheerleaders, coaches and leaders of all the school's organizations. More than 150 will participate and the public is invited.

Food, drinks, ice cream and pop corn will be available at the stadium's concession stand.

Also on tap is a football scrimmage.

Animo is being co-sponsored by the Mt. Miguel Booster club and the Parent, Teachers, Students Assn.

It is being co-ordinated by the Mt. Miguel A.S.B.

TAKE FIVE

By John E. Wirges

In case you care about such things, it was just 55 years ago last week that women conned men into giving them the vote. Of course, the first thing they did with it was to vote in prohibition. Which goes to show you what inexperience can do in the voting booth.

But you can't hold women back just because they go around making stupid mistakes. Enough of 'em developed minds that are as sharp as a man's to junk the great "dry" experiment and by and large women's voting has reflected scund judgment since. Usually her husband's.

In any event, when my sweet ol' lady came up with the idea of turning our back yard into vegetable patch I have to applaud her for coming up with some mansized thinking. And just the other day we celebrated with a $37 salad.

We found the best way to get things to grow is to sit back in the garden and listen to the Padre baseball broadcast. Ycu'd be surprised the way Jerry Coleman and Bob Chandler affect growing things. They're better than fertilizer.

The idea was to beat the high cost of living. The Ol' Gal brought it up one night at the dinner table in the third inning.

"You know," she said, "The cost of living is getting so high, we probably could save a bundle if we . . ."

"Good Idea," I interrupted, "I know just what you're going to say. Make our own beer."

". . . grow a few vegetables in the back yard," she continued just as if I wasn't there. She does a lot of that lately. She just ignores me and goes out and does what she wants. Silly things like getting a dish washer, or a water softener, or painting the house, or planting a garden.

I'm going to have to talk to her about that one of these days. She's lucky I'm not the kind of guy to stop her. I don't help her, but I don't stop her.

Anyway, she got bit by the garden bug and nothing would do until all our weeds were pulled and a bunch of dirt turned over. It was really unfair the way she went and did it and all.

Like, she wouldn't start supper until a certain amount of work was done. Now, I could sit there and listen to the Padres and not eat until 10 p.m., or I could chop dirt and maybe get fed at 6:30. She plays dirty.

First off, I had to fork over nearly $10 for a shovel and almost $7 for a rake. Then the Ol' Gal says I got the wrong kind of rake, that we need the three-pronged type and that's another $6.

Now, everybody knows you grow gardens from seeds, but not us. We have to start with plants. Another $16 for plants, to be exact.

And the shovel and three pronged rake ain't good enough to plant 'em, either. They are just for turnin' dirt ,and mixing in $9 worth of fertilizer. (Not to mention $1.25 for a new radio battery to keep Coleman and Chandler purring at the plants.)

The actual "planting" had to be done by hand. With $7 worth of "hand tools."

And if you figured we had everything we needed, guess again. There was eight bucks for a hose and did you know garden work gloves were up to $3.99 a pair? And we needed two pair.

I figured we'd plant the things we like to eat. You know, tomatoes, cucumbers, garden onions, radishes, zucchini, and some green peppers. I love green peppers.

But that Ol' Gal of mine is something else. "Gardens are too drab," she claims. "They need more color."

Soo, she planted a bunch of marigolds inbetween the rows of cucumbers and green peppers and a whole bunch of other stuff that ". . . will add color in the winter when the vegetables stop growing."

Anyway, the whole mess is in and faithfully watered between innings these last months and last night we had our first home-grown salad. Two small, thick skinned tomatoes and a cucumber that tasted like a marigold.

We spent about $75 for the garden, so far. We split the salad and I figure that comes to about $37 each.

We probably won't get much more out of it, because just after we ate and I was settled in my backyard chair with a cold beer and the Padre broadcast, our dog got loose and chased a squirrel through our peapatch three times until the long tailed rodent sailed over the fence and got away.

Needless to say, our garden is a wreck. In fact, the only things still growing out there are the damn marigolds. (They love Coleman).

I've got to be proud of my Ol' Gal, though. Even after all that work, she never shed a tear. She just went into the kitchen and drank a beer. Right out of the can. Then another. And another. Then she talked.

"You know," she said, as if I wasn't there. "What we need around this house is some new rugs."

"Go on," I said kiddingly, "those rugs are hardly 10 years old. Still good as new. Forget it. Who needs rugs."

"Yes sir," she went on, completely ignoring me, Jerry Coleman and Bob Chandler, "What we need around this house is new carpeting."

Big Bikes Back At Gardena Oval

GARDENA — The month of September at Ascot Park will see the return of the big bikes to the famous Gardena half-mile with the American Motorcycle Assn. professional riders opening the month this Friday night.

The top motorcycle riders in the nation will be racing at Ascot Park on four September dates including the 17th annual Camel Pro Series National Half-mile Championship on Saturday night September 27.

Alex Jorgensen of Stockton, a rookie expert will be trying to hold the top position in the Ascot half-mile point standings Friday in the September Friday night opener.

On Saturday night its the 40-lap feature in the California Racing Assn. sprint-car program on the half-mile dirt.

Week's schedule:

Fri. — AMA Pro Half-mile motorcycles, 8 p.m.

Sat. — CRA Sprint Cars (40-lap main), 8 p.m.

Sun. — Street Stocks, 2 p.m.

Sun. — FEAR Figure 8's, Ovals, Demolition Derby, 8 p.m.

Wed. — CMC Motocross, 7:30 p.m.

16-Year Old Star In $50,000 Net Playoff Classic

Lea Antonoplis, 16, of Glendora has been named by tournament director Norm Williams to fill the wild card slot in the $50,000 Mission Viejo Women's Tennis Classic to be played Sept. 29-Oct. 5 at the Marguerite Recreation Center in Mission Viejo.

The U. S. Lawn Tennis Assn. National 16-and-under girls champion will compete in a special playoff Monday, Sept. 29, with three veteran pros to attempt to gain entry to the round of 56 that begins play the same day.

It's a tough way to go for the right to meet such world class players as Chris Evert, Martina Navratilova, Kerry Melville, Julie Heldman and Valerie Ziegenfuss, but the nomination is a high point in Antonoplis' best season ever.

She won the nationals at Charleston, W. Va., by beating Zenda Leiss of Daytona Beach, Fla. Also this year Antonoplis won the St. Louis Invitational and reached the finals of the National Clay Court Girls Championship at Memphis, Tenn. She led the Southern California Tennis Assn. team to victory in the Intersectional Team Matches at Allentown, Pa.

Antonoplis, former three-time 12-and-under USLTA champ and member of the boys' tennis team that won the Sierra League title for Glendora High School, missed the U. S. Open at Forest Hills, N.Y., this week and is practicing for her debut on the Women's Tennis Assn. fall circuit at Mission Viejo.

Burglar Takes CB Radio

A burglar used a screwdriver to open the window of Howard W. Palechek's '65 Mercury one night last week while it was locked and parked at 2120 Massachusetts, Lemon Grove.

A 23-channel CB radio, Royce, model 600, worth $150 was taken while Palechek was sleeping in his residence.

Padres Back Home Monday For Reds, Braves Finales

The San Diego Padres will bid farewell to the Cincinnati Reds and the Atlanta Braves in the next few days as they wind up the 18-game season series with both clubs here in San Diego.

But first, the Padres find themselves completing their final out-of-state road trip of the year in Atlanta and Houston. The Padres have the last of a two-game series with the Braves today and then will close out the swing with three games in the Astrodome with Houston, Friday, Saturday and Sunday.

Then it will be back home to put the finishing touches on the series with Cincinnati, September 8-9, and Atlanta, September 10-11. All four of the home contests are slated to get underway at 7 p.m.

The games with the Reds and Braves will actually be the first two-thirds of one of two homestands for the Padres as Houston will follow the two clubs in for single games on September 12 and 14. That also will mark the end of the meetings with the Astros for another year.

Season's End Nears

The homestand will just about say farewell also to the entire season as following the six-game stay, the Padres will have just 13 games remaining (six on the road and then a final homestand of seven games at the end of the month).

"The Western Division seems to be settling down in that a lot of people are picking the order of the clubs as it stands in early September (San Diego fourth) as the final finish," Padre manager John McNamara said.

"Well we're not throwing in the towel just yet. There is still plenty of time to make up some lost ground and catch San Francisco for third place and a first division finish. We'd like nothing better than to wind up right behind the Dodgers. That would sure give a lot of folks something to think about during the winter months.

"What we have to be careful of is to make sure that we play our absolute best in the few remaining games with Atlanta, Houston and San Francisco. A slip here or there could cost us the game or two necessary to finish up in the first division."

2 Days Off

The Padres have two off-days coming up shortly as they will take a break on Saturday, September 13 due to an exhibition football game in San Diego Stadium and then one on September 18. San Diego has only two more home day contests left on the 1975 calendar and those are two Sunday outings on September 14 and 28.

Cars, Bicycles Fireworks Listed

The San Diego Padres will celebrate setting an all-time attendance record for the second year in a row by holding One Millionth Fan Night on Monday, when the club returns home to play the Cincinnati Reds.

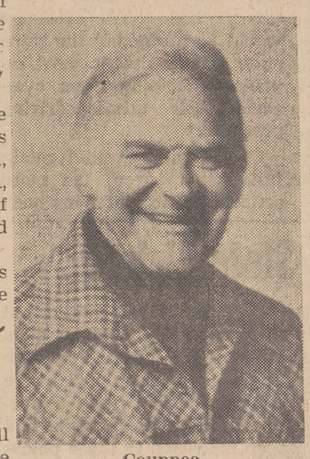
All fans will go home with at least a free bumper sticker, but 25 lucky fans will have a shot at winning either a car or a bicycle. Five new 1975 Dodge Colts will go to the fans along with 20 Sears Spirit 10-speed bicycles courtesy of Pepsi Cola.

Fans will be selected on an equal basis from each of the field, plaza, loge, press and general admission sections in a drawing of ticket stubs or registration slips.

Fans who anticipate a late arrival at the stadium following the close of the ticket windows may register in advance to be eligible by filling out a special form at the park prior to 5 p.m., Friday.

Fireworks Shows Tuesday

A post-game fireworks program has been added to the entertainment calendar by the San Diego Padres. It will be staged immediately following the Padres game with the Cincinnati Reds on Tuesday.



Couppee

PRESIDENT — Sports celebrity Al Couppee has been elected president of the San Diego chapter of The National Football Foundation and Hall of Fame, it was announced by the outgoing chief officer Bill Mast.

Elected vice president was Captain "Duke" Ferrara, USN (Ret.) and attorney Allan Brown was selected secretary - treasurer. The election was held recently at the Carlton Oaks Country Club where 75 members and guests took part in dinner and a round of golf.

Among the past great football players to attend were All-American Ernie Smith, U.S.C., Phil Bengtson, U of Minnesota, Paul Schwegler of the U. of Washington, Admiral Tom Hamilton, USN (Ret.) from Annapolis, and Aubrey Devine, U. of Iowa.

Couppee said, "Aside from our annual high school Scholar - Leader - Athlete Awards Banquet, the chapter will also sponsor three or four different events during the year including a night of football at a S.D. State U. game."

S.V. Recreation Softball Standings

Standings in the Spring Valley Rec. District's Adult 12" softball league at week's end were:

Men

CAJON SPEEDWAY
SUPER STOCKS
EVERY SAT. 8 P.M.

Burglars Do Well In 3 S.V. Ripoffs

The burglary spotlight was on Spring Valley business firms.

Three of them were burglarized in Spring Valley in a 24-hour period — and the loss of each was sizable.

Decker's Arco station at 9366 Jamacha blvd. lost $2,000 which owner Earl W. Decker kept in a five-gallon glass bottle covered with a paper bag.

The station was broken into during closed hours, he told sheriff's deputies on August 28, by a thief who kicked in a back window.

The next night a closed-hours burglary cost Harvey's Mobil Station, at 697 Sweetwater rd. $400 in tires. The thief broke a side window and made off with radial and belted tires, Harold G. Worley, the manager told officers.

For a change of operation, a thief broke into Skyline Motor Homes Rentals, 10003 Campo rd. and took two swivel chairs and a stereo device worth $600, according to Gerardo V. Guley, a co-owner of the operation.

They entered by breaking open a sliding glass window, deputies were told.

One of every six employed persons works in the manufacture, distribution, maintenance and commercial use of motor vehicles.

Russians to Test U.S. Team Tonight In Volleyball Game

The Russian national volleyball team, rated even stronger than the squad that dominated the 1964 and 1968 Olympic competition, will be challenged by a young and upset-minded U.S.A. club starting at 8 p.m. tonight in the Sports Arena.

Favored to win the gold medal at Montreal in next summer's Olympics, the Russians are experts in their error-free well-disciplined style that features power spikes and unpenetrable blocks.

The 12-man American team, featuring three former San Diego State players, will rely on speed and offensive quickness to counter the Russians. It will not be an easy task, especially against a Soviet team that recently scored a sweep over the razzle-dazzle Japanese.

Stars Listed

"We have the height and over-all ability to hold our own," said Bob Stafford, the Aztecs' MVP last year and a member of the USA squad which includes Chris Marlowe, a member of the 1973 NCAA champion Aztecs, and Mike Cote.

Gus Mee, a collegiate All-American; Doug Beal, a veteran of international competition; Tim Bonynge, a three-time All-American; John Zajec, a star on UCLA championship teams; and Tom Read, an all-around athlete at Whittier College, are other members of the USA team.

Tickets for the international match are $6.50, $5.50 and $3.50 and parking at the Sports Arena is free.

Food Stamp Series Switch

Although old series food stamps are no longer negotiable as of August 31, they may be exchanged at local food stamp issuance offices for new series stamps.

New $1, $5 and $10 denominations replace the old 50 cent, $2 and $5 series.

Spring Valley Burglary Nets Thousands

The loss in a Spring Valley burglary perpetrated over the Labor Day week-end, may total several thousand dollars based on a loss report turned in by Robert Lee Making, a window cleaner, of 8709 Ildica

The Makings returned from a camping trip found a great number of their valuables missing.

Among the items of loot are:

Several cameras and projectors; diamond rings; tools; color teevees; a bicycle; stereos; tapes; a Jacuzzi; compressors and a sander; Skilsaws; a tool box and tools; 14 guns of various makes and sizes, and other valuables.

Traffic Referee Plan Eyed

Contested traffic citations may be resolved by the California Department of Motor Vehicles instead of the courts system in the future, if a study by DMV proves the feasibility of administrative adjudication of driving offenses.

DMV Director Herman Sillas said the study was requested by Senate Concurrent Resolution 40 and asks that the department determine if a traffic violator referee system operated within DMV would help to reduce court case backlog in municipal courts and improve the driving behavior of people who continue to get citations.

DMV would be aided in the study by the California Judicial Council, the League of California Cities and the County Supervisors Assn.

The study is to begin immediately and the department will sumbit a report to the Governor and the State Legislature no later than April 1, 1976.

Used in N.Y.

Sillas said a similar system has been in use in metropolitan areas of New York for almost five years. Last month the State of Rhode Island implemented the new system as the first statewide program.

"I visited with several officials in New York and Rhode Island to discuss the operation and came away favorably impressed."

Under the administrative adjudication system a motorist cited for a routine traffic violation may come before a trained hearing officer, or referee, instead of a judge.

"I learned that New York is handling over a million traffic cases annually through the referee system," Sillas noted, "which has proven to be both a tremendous relief to their courts and has increased the efficiency of the system in terms of lower cost."

Sillas said that California municipal courts handle almost five million moving violations a year. "And the problem is growing all the time."

TV Improve Safety

It was noted that there may be a beneficial effect to traffic safety if the traffic violation referee system becomes a realty.

"We would hope to integrate the system with our driver licensing and post-licensing control functions. Under this method, traffic offenders would be contacting the same state agency that is most capable in helping them overcome their unsafe driving practices."

Courts still would retain jurisdiction over the more serious traffic violations such as vehicular manslaughter and reckless driving.

Sillas said that the study will concentrate primarily on citation issuance and case preparation processes; arraignment, hearing and decision processes; prior record and sanction processes; and the review and appeals processes.

Benefits Income

"We plan to take a good hard look at the cost-benefit ratio to assure that the administrative adjudication system in California would be self-supporting and that local agencies increase their net revenues from traffic fines," Sillas said.

He said local revenues should be increased under the program because DMV's computer equipment can enable the department to locate scofflaws who ignore warrants faster than the local agencies can.

DMV is actively seeking applications from attorneys for the position of study director and is inviting lawyers with a general knowledge of the traffic safety system and traffic courts to submit a resume to that office.

Exchange Students Need U.S. Homes

Many eager Latin American students, aged 12 to 18, have applied to come to the United States to study this fall. They will be attending American schools for one semester or one full school year. To be selected for the Youth Exchange Program (YES), one of several foreign exchange programs, the children undergo testing for state of health, maturity and adaptability.

The number of students who are able to come are dependent upon the willingness of American families to open their homes.

YES Coordinator Robin McNamara said, in announcing a plea for host homes that "a young person who has been immersed in a foreign culture through family living is an enriched individual. He has gained new eyes and will see everything from a new perspective — as will the host family."

Families interested in hosting an exchange student should contact YES, Box 4020, San Clemente, CA 92672. Telephone is 448-2591.

Fuel Costs Raise State Airfare

Air fares have gone up between virtually all points in California for four major airlines pursuant to decisions handed down by the California Public Utilities commission on August 26.

Specifically granted were:

— A 20 cents per passenger increase for Air California to offset recent changes in the airline's cost of fuel.

— 1.92 per cent increases in fares of United, TWA and Western airlines' flights which are in competition with PSA.

United was also authorized to extend the 6.5 per cent increase it was granted on June 24 to its markets which are non-competitive with PSA's. The June 24 increase had been restricted to those points served jointly by United and PSA.

Western also received permission to increase fares 20 cents per passenger between those points served in competition with Air California.

Fares between Los Angeles and the San Francisco area for United, Western and TWA have gone up to the level now charged by PSA — $22.50 for one-way coach, including tax.

Air California's Santa Ana/Bay area fare will be $26.45.

Still a Loss

The PUC noted that even with the increases United, Western and TWA will still be operating at a loss within California.

The Air California decision is interim, pending full consideration of the airline's request for a $2,102,000 increase. The fuel offset increase will result in about a $258,000 annual increase, the PUC reported.

Inspection Uncorks Soda Pop Shortage

Given a hot enough day and a strong enough thirst, an ice cold can of soda pop can be good to the last drop. But not so, if that last drop is missing.

So said the state Department of Food and Agriculture to a Sacramento manufacturer of diet soda last week. 12-ounce cans of Weight Watcher's root beer, lemon-lime and ginger ale were shy an average of half a fluid dram—about a third of an ounce, in tests conducted by the county Weights and Measures department.

In the same week, the busy inspection crew rejected for short weight 2,795 half-gallon containers of low fat milk, 36,744 cans of non-diet root beer and 18,000 containers of margarine, and sent a warning to other California counties to beware of similar shortages.

Mosquitos Worth More Than Bite, NWF Finds

If any proof is needed that every living creature plays a useful role in nature, a Utah scientist is about to supply it, according to the National Wildlife Federation.

Dr. Lewis Nielsen of the University of Utah is collecting evidence to prove that if it were not for the lowly mosquito, much despised by man, some of our most beautiful wildflowers would vanish. Male mosquitos, like bees, feed on the nectar of flowers. "What we're trying to show," Nielsen says, "is that as the mosquitoes fly from flower to flower they also pollinate the blossoms and enable the flowers to reproduce."

Nielsen, an entomologist, concedes that mosquitoes are not as important as bees but believes they pollinate some tiny flowers that bees ignore, such as forget-me-nots. The pesky insects also play another role in nature, according to the NWF: They are a source of food to such predators as fish, birds, bats, dragonflies and spiders.

Rotary Gov. Visits L.G. Club Mon.

Glenn E. Murdock, of La Mesa, Rotary International district governor, will make an official visit to the Rotary Club of Lemon Grove at the club's weekly noon luncheon on Monday at the VFW Hall.

Lemon Grove Rotary President, Dr. Myron D. Fessler said that earlier that day, Murdock will confer with him, Secretary Leonard A. Klein, and other officers, directors, and committeemen about club and district projects and administrative matters.

The Lemon Grove club is one of 39 Murdock leads as governor of Rotary District 534, which comprises San Diego and Imperial counties and a part of Riverside County and numbers some 2,800 Rotarians.

A retired school district administrator, Murdock is a member and past-president of the Rotary Club of La Mesa. He is one of 355 district governors in the world serving Rotary, an international business and professional men's service organization with 16,475 clubs enrolling 774,500 members in 151 countries.

Taxpayer Groups Back 2/3 Requirement

SACRAMENTO — Representatives of thirty taxpayer associations meeting in Sacramento last week have voted support for an initiative measure which will require a two-thirds vote to change all taxes except the unemployment insurance and disability insurance taxes.

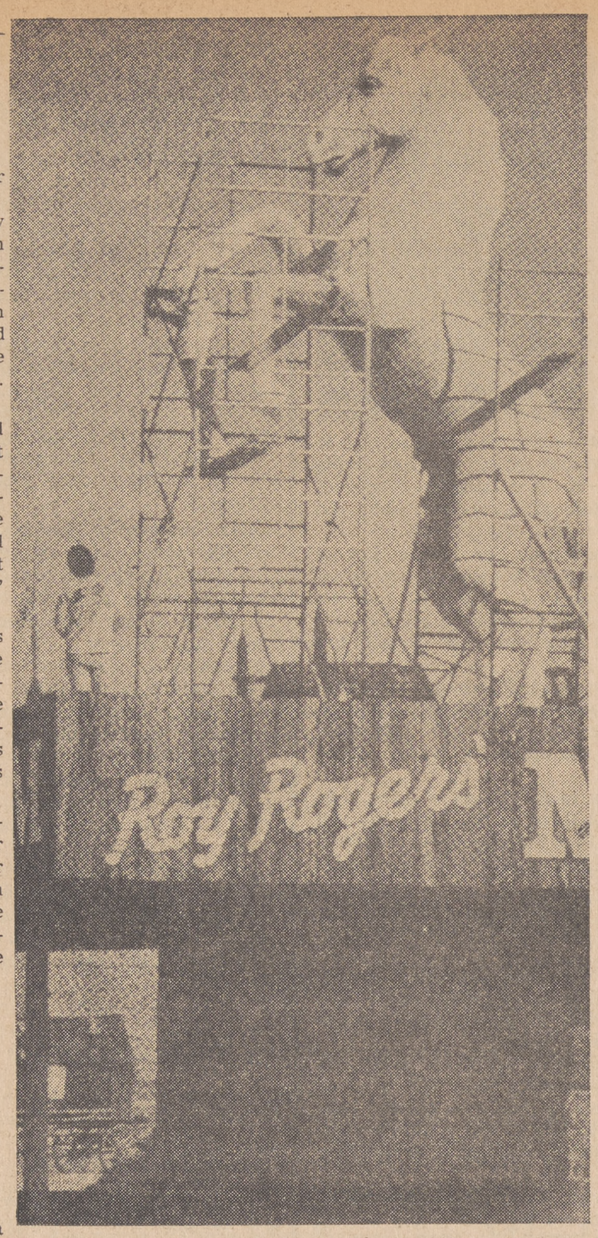
The vote was unanimous with abstentions from organization delegates who had not been empowered by their members to pledge support on actions.

The initiative now is being circulated in California as a counter to a second initiative which proposed to change all taxes by a simple majority vote.

Watch and Quarters

Richard Wolfgang Liu, of 3411 Lakeview dr., Spring Valley told sheriff's deputies his loss was $350 to a burglar who entered his home sometime August 25 before 5:30 p.m.

The loot included $100 in rolled quarters and a gold watch worth $250. The thief got in through a sliding glass door.



TRIGGER HAPPY — A 21-foot tall replica of Roy Rogers' famed horse Trigger gets a coat of paint from members of a Lemon Grove firm.
Trigger is the centerpiece of Roy Roger's Museum at Apple Valley in which all the Rogers' paraphernalia is enshrined. The huge horse was painted by Fisk Signs, auto decorating specialists of 7848 Lester ave., after the horse was dismantled to make a mold from which other 21-foot Triggers will come. (Trigger comes apart lengthwise). Following the reassembling chores Lyle Fisk and his associate, Joe Cook, made the trip to Apple Valley for the four-day restoration job.
Using fibreglas acrylic paint, the pair left Trigger looking at his likelife best.
In the museum is the stuffed body of the real Trigger together with all sort of guns, wagons, clothing and background items used in Rogers' epics.

Medi-Cal Grants Inflation Pay Raises to Affiliate Facilities

First increases since April, 1974 in state payments for about 67,000 Medi-Cal and other clients in California nursing homes and community facilities were announced by Director Jerome A. Lackner, M.D., State Department of Health recently.

The increases affecting some 1,300 "skilled nursing facilities" and 32,000 "community care facilities", will cost an estimated $45 million through next June.

New rates reflect inflationary increases, both in labor and materials, during the last 16 months. Also included are supplementary payments for additional services required by recently adopted licensing and certification regulations.

Part of the increase, ranging from 30 to 86 cents per patient a day, was effective July 15. Skilled nursing and intermediate care facilities were granted the extra money to compensate for costs of such factors as staff training, dental consultation, and other services. Balance of the increase for cost-of-living is effective August 1.

The average payment per patient day to skilled nursing facilities now will be $19.95, compared with $17.81 in 1974.

$34,000 Pledged In KPBS Drive

1,759 new members and $34,452 has been raised to support public broadcasting in San Diego — the KPBS stations — as a result of the Summer Membership Drive which ended August 25.

Of the PBS stations participating in the drive, KPBS is tenth in the nation in dollars pledged, and 9th in the number of pledges, in spite of being 32nd in market size and carrying a UHF signal, according to Bob Myers, Directors of Development.

San Diegans pledged a minimum of $15 a year for support of the non-profit, non-commercial station, and Myers reports two donations received: one of $500 and one of $1,000.

The summer drive began with the Friday night screenings of Ingmar Bergman's films, one of which will be shown each week through mid-December.

Last 805 Link Opens

The 3.2 mile missing link in I-805 from Plaza blvd., National City to Route 94, opens today, completing the 29-mile bypass route from the national border to Del Mar.

Hearing is New Chance For SDG&E Rate Hike

The California Public Utilities Commission has granted San Diego Gas & Electric a rehearing of a rate increase application which the PUC denied July 1.

The application, filed in December, was for $4,115,100 to offset increased wage expenses. Public hearings were held in La Mesa and Los Angeles between April 14 and May 13. SDG&E petitioned for rehearing July 10.

In granting rehearing, the PUC said that SDG&E should be given the opportunity to present evidence of its estimated 1975 results of operation.

Home Tax Complainers Must File by Sept. 15

The filing deadline for property owners who plan to contest the values placed on their properties by the county assessor is approaching.

For residents of San Diego County, the filing period ends September 15.

If a property owner has not already received notice of the assessed value of his property, he may obtain the information by visiting the assessor's office. Usually the assessor's office will supply the figures by phone or mail if the owner can identify his property accurately, preferably by parcel number.

Conditions Listed

A property owner can contest the assessor's full value estimate if he thinks it is excessive. Except for land in the "Open Space" program, "full value" means the best price a willing and knowledgeable seller could obtain for the property from a willing and knowledgeable buyer.

The property owner contesting a valuation should be prepared with information on market values of comparable properties in the neighborhood.

Excess Only

Board of Equalization Chairman John Lynch advised that a property owner cannot expect relief merely becauses taxes generally are high or because the current assessed value is considerably higher than last year's. The current assessed value must be excessive relative to what the property was worth on March 1.

Forms on which to file appeals may be obtained from the Clerk of the County Board of Supervisors, 1600 Pacific Highway, San Diego.

Revenue Sharing Expenditure Listed

The County of San Diego has filed a report with the federal government listing expenditures of federal revenue sharing funds covering the period from July 1, 1974 to June 30, 1975.

Capital expenditures are listed as follows: public safety, $226,404; environmental protection, $1,371,168; health, $556,250; recreation, $4,289,984; and multipurpose and general government, $1,339,239.

Operating/maintenance expenditures are as follows: public safety, $304,748; environmental protection, $84,882; public transportation, $11,279; health, $1,929,961; recreation, $326,646; social services for aged or poor, $4,070,386; and financial administration, $224,983.

Total capital expenditures amounted to $7,783,045 while total operating/maintenance expenditures came to $6,952,885. Total $14,735,990.

Shun Motel Jewelry Sales, BBB Warns

The popularity of turquoise and other forms of American Indian jewelry has spawned a new breed of promoter who travels across country conducting special sales in hotel and motel rooms, reports the San Diego Better Business Bureau.

The BBB warns that some of these sellers have been known to hawk "highly plasticized" jewelry, passing it off as the genuine article.

Their advice is to deal with local, established firms who will stand behind their merchandise, noting that a motel room merchant is difficult to track down if there is a complaint.

Letters to the Editor

Dear Editor,

The American Independent Party County Central Committee (AIPCCC) voted unanimously to publicize its position regarding the present "conflict" between the County Board of Supervisors and our County Sheriff.

Should a power-hungry segment of the U. S. Congress try to snatch control of the U. S. Department of Justice and all Federal Prisons away from the Presidency of the United States, the citizens of this nation would drive the subversionary Congressmen from office in short order.

Or, should some scheming members of our State Legislature seek to chop up the duties of the Governor and then assign control of those duties to themselves — thereby either eliminating the office of Governor or reducing it to that of only a figurehead — the citizens of this State would quickly throw them out of office.

Yet we have a situation every bit as obnoxious wherein a power-hungry, free-spending, cabal of Supervisors has voted to grab off a major portion of government that rightfully and lawfully belongs under the control of our elected County Chief Executive Officer, the Sheriff!

AIPCCC firmly supports our Republican Form of Government based on the constitutional principle of the separation of powers. Our California Constitution clearly specifies that "The powers of state government are legislative, executive, and judicial. Persons charged with the exercise of one power may not exercise either of the others except as permitted by this Constitution."

Counties are merely legal subdivisions of the State and, as such, are bound by these constitutional limitations. Nowhere in our California Constitution is there any permission granted to the legislative branch of any governmental body at any level in this State to exercise either executive or judicial powers!

The Board of Supervisors is the legislative branch of our county government and, therefore can properly and lawfully exercise only legislative powers.

It follows, then, that any attempt by a majority of our Supervisors to remove an "executive function" from the control of duly-elected Executive Officer and place such "executive function" under the control of an official who is to be appointed by the Board of Supervisors is completely unconstitutional.

This practical constitutional principle of the separation of the powers of government has served our country most admirably for the past two centuries while governments in other parts of the world have come and gone.

Just as the President is the Chief Executive Officer of the United States, and the Governor is the Chief Executive Officer of his State, and the Mayor is the Chief Executive Officer of his City, so the County Sheriff is the Chief Executive of his County.

All executive functions which rightfully and lawfully belong under the control of the County Sheriff must remain under his control in order for him to effectively perform the job he was elected to do.

Jack McCoy, Chairman
County Central Committee
American Independent Party

Dear Editor:

I, LOUIS F. GRUNLOH, 3640 S. Barcelona st., Spring Valley, am the San Diego City School District teacher who was arrested on May 6 for sending a three-page, legal size, single spaced alleged "threatening" letter to San Diego School Supt. Thomas Goodman on May 3 in an attempt to force him to take the necessary measures to terminate long-standing official administrative harrassments. I appeared in Department 8 of the San Diego County Superior Court, with Judge Ross Tharp presiding, on August 29 for a hearing on several motions the defendant had made to the Court on his letter of August 11.

I, L. F. GRUNLOH, primarily, requested the official relief of his court-appointed attorney, Peter B. Clarke, for serious cause. Clarke had been appointed by the Court on July 11 to replace Hodge Crabtree III. Crabtree, the original court-appointed attorney in this case, was also relieved by the Court upon the defendant's request for the same cause.

I contend that the court-appointed attorneys, Crabtree and Clarke, have refused to provide legal counsel for

DUTY — Sgt. Mark Kelly, of 1718 Denstone pl., Lemon Grove, is a 3-year Explorer Scout who is leaving in a few days to join the Air Force. But when the Lemon Grove Sheriff's office came up shorthanded last week because of vacations, Sgt. Kelley volunteered to take over the desk duty of one of the paid personnel, although he does not get paid for his services and has but a few days before reporting to Armed Forces duty.
Explorers are those youngsters who serve with law enforcement agencies and generally go into a branch of police work. Kelly will take enforcement training in the Air Force and go into law enforcement when he finishes his tour.

Orchestra Fall Classes Start Wednesday

Musicians looking for a vent to their talent can enter one of two classes at Hoover High adult school this fall.

Orchestra Workshop will meet Wednesdays, 6:30 to 9:30 p.m. The class is arranged for those who want learning experience in orchestral works of the great masters. The workshop is preparatory for the San Diego County Symphony.

The Symphony opens its fall season a day later. Also meeting at 6:30 p.m., the performing orchestra is under the direction of John Metzger.

It meets Monday and Thursdays with Thursdays set aside for chamber music.

Cellos, violas and horns are special needs of the orchestra. Any qualified musician wishing to perform with the chamber orchestra is invited to participate.

Acupuncture Opens New College Grove Lecture Series

San C. Hsieh, M.D., will discuss and demonstrate "New Developments in the Art of Acupuncture" to open a new series of talks exploring new and ancient methods of healing on Monday at 2 p.m. at College Grove Shopping Center Community Hall.

Each program will be repeated at 7 p.m.

Dr. Hsieh is a diplomate of both the American Board of Internal Medicine and the American Board of Nuclear Medicine.

Other programs will explore acupressure, American Indian medicine, Tibetan medicine and biofeedback training. Two film forums will complete the series.

The public is invited to attend the free program.

College Grove Talk On Self-Happiness

"Give me an hour and I can change your life forever," says author and lawyer-psychologist, David Cole Gordon.

The Grossmont College series titled "Journey in Search of Yourself" continues when he speaks on "Happiness and Its Relationship to Drugs and Sex" at 2 p.m. Friday in the College Grove Shopping Center Community Hall.

Adjunct professor of Union Graduate School and founder-director of the Life Counseling Institute of America, Gordon is the author of a number of books, the most recent ones on his views on death and masterbation.

As a counselor, he advises each person to make a unification inventory — to list his most pleasurable periods, to see what they have in common, and to try to bring more happy unifying experiences into his life.

Vacation Inflation

The vacation cost Louis Imbimbo and his family $549 more than anticipated.

When they returned to their home at 7895 Lansing dr., Lemon Grove on August 23, they discovered their home had been burglarized and watches and earrings and other jewelry items were missing. The loss, it was indicated, was $549.

The intruder slipped the lock on a rear bedroom window to enter.

TV and Rifle Taken

James Toland, 6695 McArthur dr., Lemon Grove, told sheriff's deputies that a burglar took two items from his home during his absence. He said they were worth $500.

He listed a 14" portable teevee and a 308 mag. rifle at $250 each.

The thief entered a rear kitchen window and left by the front door.

Gallery Evening Hours Discontinued

Wednesday evening hours will be discontinued after September 10 at the Fine Arts Gallery, Balboa Park. After that date, regular hours will resume; Tuesday through Saturday, 10 a.m. to 5 p.m.; Sunday, 12:30 to 5 p.m. The museum is closed on Monday.

Family 'Technology' Is Lecture Topic

"Technological Repercussions in the Family" are pondered in one of a series of lectures presented by Grossmont College's Community Education office on Wednesday, 8 p.m. in the Fine Arts Recital Hall.

The series is an attempt to answer the question, Can the American family survive in today's society?

Grossmont sociology instructor Jay Turner leads Wednesday's discussion group.

The public is invited at no charge.

Free Child Care Class

Men as well as women who would like to work with children have an opportunity for free training this fall.

The County Regional Occupations Programs will repeat last year's child care training class at Grosmont College beginning September 15. Applicants are needed for class sectiins on Monday and Wednesday from 2 to 4 p.m. and on Tuesday and Thursday either from 9 to 11 a.m. or 1 to 3 p.m.

The course, taught at the college's Child Care facility, focuses on learning how to work with children in a way that provides emotional and intellectual support and includes field work, worshops and discussions.

People interested should contact Carol Maga at 461-1742.

Marriages

These couples were issued marriage licenses August 22-28.

Michael Guenon, 22, Lemon Grove and Judy McIntyre, 21, Santee.

Phillip Bolduc, 21, and Winifred Nakashima, 23, both Spring Valley.

Kenny Holland, 20, Lemon Grove and Susan Burbach, 19, San Diego.

Glenn Holmes Jr., 21, and Vicki Levy, 19, both Lemon Grove.

Steven Jordan, 37, Lemon Grove and Kathleen Kuhn, 35, San Diego.

Shaun Kesterson, 24, San Diego and Kathy McMasters, 22, Lemon Grove.

Robert Mackenzie, 42, Spring Valley and Shirley Christensen, 33, San Diego.

Richard Ryan, 54, and Margaret Lee, 53, both Lemon Grove.

Mark Souza, 21, and Laurel Thompson, 19, both Spring Valley.

Efren Valdez, 21, Tijuana and Gloria Lopez, 22, Spring Valley.

10¢ Bus Route To Grossmont College Tried

Shuttle service from Grossmont College to Grossmont Shopping Center began an 18-day trial period recently. San Diego Transit is experimenting with the 10-cent shuttle bus service to determine if there is enough demand to continue this type of route.

The route starts at Grossmont Shopping Center where connections can be made to routes 80, 90 and E—El Cajon. The bus then travels along Jackson dr. to Lake Murray blvd. and Navajo where connections to route E—Fletcher Hills can be made. From there the bus travels to Grossmont College. The northern end of the route operates from the college north on Fanita dr., east on Mission Gorge rd. and north on Carlton Hills blvd. to Mast blvd.

The route runs from 7:24 a.m. to 4:08 p.m. weekdays only. Fare is 10 cents for this route only, 35 cents if a transfer is requested.

Businesses, Residents Pay Almost Same Tax

The $16.6 billion paid by Californians in 1974-75 to support state and local government fell almost equally on individuals — 47.1% — and businesses — 50.7% . This finding is part of a California Taxpayers' Association Research Bulletin, "Who Pays California's State and Local Taxes," the first comprehensive analysis of initial tax impact on individuals and businesses. The remaining 2.2% of the tax burden is paid by government and by nonresidents.

Mrs. Clark, Jailer

Continued from Page 1

Mrs. Clark and a cadre of Probation personnel are receiving training in jail management from the Department of Corrections for an orderly transition to the County Jail.

Meanwhile, Sheriff John Duffy has announced that prisoners will not be housed in the facility because he is retquired by law to have control of them until their casese are disposed of by courts.

NOTICE OF INTENTION TO VACATE AND ABANDON AN IRREVOCABLE OFFER TO DEDICATE A FUEL BREAK IN THE JAMUL AREA
Vac. 75-14

PUBLIC NOTICE IS HEREBY GIVEN that The Board of Supervisors adopted a resolution on August 12, 1975, declaring its intention to vacate an irrevocable offer to dedicate a fuel break:
A copy of the resolution with a complete legal description is on file in the office of the Clerk of the Board of Supervisors, Room 306, County Administration Center, 1600 Pacific Highway, San Diego, and is available for public inspection.
The Board has fixed September 17, 1975, at 10:00 a.m., and the North Chamber of said Board, Room 310, San Diego County Administration Center, 1600 Pacific Highway, San Diego, California, as the time and place for hearing on said resolution of intention.
YOU ARE HEREBY NOTIFIED to appear at the time and place fixed for said hearing and show cause, if any you have, why said highway should not be vacated and abandoned.
For further details reference is hereby made to said resolution of intention on file in the office of the Clerk of the Board of Supervisors, Room 306 of Said Administration Center.
BY ORDER OF THE BOARD OF SUPERVISORS adopted August 12, 1975.
PORTER D. CREMANS
Clerk of the Board of Supervisors
By Sara Drew
Deputy

Chain-Letter Bond Sales Not Get-Rich Scheme, Says Treasury

Chain letters and U. S. Savings Bonds don't mix.

That's the warning from the U. S. Department of the Treasury, reporting on the latest pyramiding scheme which has bilked innocent victims out of an "investment" which is not only unsound but illegal.

A few months ago, a number of endless-chain schemes were launched in Southern California, the Treasury Department reports. The intermingling organizations were active under several misleading names: "Your March of Bonds", "Inflation Defense Foundation", "Century Club", "Exclusive One Million, Inc.", "Uncle Sam Investment, Inc." and "Six-Pack Club".

Membership — $81

Most often the scheme works this way:

The victim becomes an "active member" by paying $37.50 to a "sponsor." In return, he receives a membership list of ten names and a $25 savings bond, recently purchased for $18.75, and made payable to the first person on the list.

The new "member" makes two new membership lists, crossing off the top name on the original list and adding his own name at the bottom. He then purchases two $25 bonds, payable to the person who is first on the new lists.

He delivers the bond that came with the first list to the person named — personally or by mail.

As a new "member", he is required to pay annual dues of $3 and to purchase membership books at $1.50 each, to give to the two "new members" he brings into the scheme. The victim has tallied up a debt of $81 at this point, but he is told that he would recover most of his investment when he sells his two lists. He would, in fact, recover $75 if he was able to do so.

However, for one member to receive $19,200 — the promised windfall — 1,024 new members would have had to join after he did, without the chain's being broken. To achieve what promoter's term "optimum success," the treasury concludes, the schemes required a membership of 250 times the entire population of the world.

Bucks Stop Here

Since membership lists were originally prepared by the promoters, the scheme would provide bonds for them long before, if ever, new members reaped any harvest.

The California Attorney General and the Los Angeles City Attorney cooperated in the investigation, arrest and conviction of promoters who were held in violation of the California Penal Code concerning endless chains and lotteries.

Chain-Letters Illegal

Most of the victims involved in such schemes are relatively innocent of wrongdoing, according to a Treasury spokesman. They have no intention of perpetrating a fradulent scheme or otherwise using the mails illegally — U. S. Code Title 18, Section 1302, the lottery statute, and Section 1341, the mail fraud statute, establishes criminal sanctions of $1,000 fine or imprisonment for up to two years for using the mails for lottery or chain-letter promotion.

Promoters, rather than circulate the original lists through the mails, relied on meetings in private homes to further their schemes.

Individuals who purchase Savings Bonds from chain-letter schemes who discover that participation may violate certain laws and regulations, may request a refund, using Treasury Form PD-2966, available at many banks.

FAA Seeks Comment On Noisy Aircraft

The Federal Aviation Administration will hold a meeting for the general public on Wednesday, September 17, seeking public comment for the development of a national airport noise policy.

FAA representatives will meet with citizens 6:30 to 10 p.m. in the Copper Room of the Convention & Performing Arts Center, 202 C st., San Diego.

A separate hearing for airport operators, airlines, transportation industry officials and government officials will be held earlier in the day.

JUST A HOLE IN THE GROUND now, but by December a new McDonald's restaurant will be selling hamburgers to residents of Lemon Grove. The new unit will be located on Broadway just west of the Massachusetts intersection.

Stereo Listening Good Way to Detect Quakes, Geologists Say

State geologists have been listening to earthquakes in stereo for the past three years and they believe now they have a method that may help them predict quakes in the future.

According to James Slosson, head of the California Division of Mines and Geology, the idea isn't new but the method may be.

"Acoustic detection methods have been used in mining since 1939," he said. "The idea has been to detect the inaudible cracking and popping of rock that occurs just before a tunnel wall fails.

"We wanted to do the same for earthquakes and to learn what makes up a good acoustic listening station."

Slosson said that under the direction of geologist C. Forrest Bacon six stations were established in 1972 along the San Andreas Fault between Parkfield — a town northwest of Paso Robles — and Palmdale in Southern California.

Two Probes

A typical installation consisted of two listening probes, installed six feet into a rock face and 25 feet apart. Each was connected to a device that amplified sound up to 2½ million times for recording on magnetic tape.

"The reason we had two probes, the reason we listened in stereo," said Slosson, "was that often there are sounds in the earth that have nothing to do with earthquakes.

"The ground expands and contracts during the day as it warms and cools and that makes noise, but it isn't seismic noise. So if we heard something on one probe but not on the other, then we didn't record. That noise was local, not along the fault and therefore not seismic."

Slosson said that extraneous noise was the greatest problem — even the wind proved troublesome. And it was difficult he said to distinguish between noise caused by heat changes and a true seismic event.

Drink to That

About 30 million bushels of corn are used by the whiskey industry yearly.

San Diego County Grows 15 Per Cent in 5 Years

Results of a county-wide census, conducted earlier this year, have been certified by the State of California, and show that the County's population has increased 14.9 per cent in the last five years.

As of April 1, 1975 there were 1,559,505 persons residing in San Diego County, comparted to 1,357,854 on April 1, 1970.

The recent census was a cooperative effort by the County's 13 cities and the County of San Diego. The County coordinated the actual taking of the census. The results of the census should increase population-based revenues paid to the cities and County by the State, according to County officials.

San Marcos showed the greatest population gain with a 153.2 per cent increase from 3,896 people in 1970 to 9,863 in 1975. Coronado was the only part of the County to show a population decrease. In 1970 there were 20,910 people in Coronado as compared to 18,091 in 1975 — a decrease of 13.5 per cent. This decrease is attributable to a decrease in military population.

The County's unincorporated area grew 23.6 per cent from 292,625 in 1970 to 361,756 in 1975.

Cities Grew

Population increases for the last five years in other cities in the County are as follows: Carlsbad, 29.8 per cent; Chula Vista, 10.7 per cent; Del Mar, 19.7 per cent; El Cajon, 14.8 per cent; Escondido, 33.7 per cent; Imperial Beach, 2.5 per cent; La Mesa, 8.3 per cent; National City, 2.4 per cent; Oceanside, 36.5 per cent; San Diego, 10.6 per cent; and Vista, 14.6 per cent.

According to official figures, the number of persons per household has decreased slightly from 2.94 in 1970 to 2.73 in 1975.

The unemployment rate for the five year period increased from 6.3 per cent unemployed in April of 1970 to 9.1 per cent unemployed in April of 1975.

The median household income averaged $10,478 in April of 1975.

Some 539,296 heads of households were asked what type of employment they were engaged in. Some 104,865 responded with the answer they were retired. The next largest category were persons employed by the government— 97,582. Following this, 85,206 were engaged in an occupation providing some sort of service.

Employment Breakdown

Additional employment breakdowns included: agriculture, forestry and fisheries, 6,071; mining and construction, 22,044; manufacturing, 37,086; wholesale and retail trade, 33,152; transportation, communication, and utilities, 19,180; finance, insurance and real estate, 15,127. Some 48,718 heads of households interviewed gave no response to this question.

Responding to the question concerning their principle mode of transportation some 267,167 persons said private or company car. Some 6,323 people said they walked to work and 3,261 people said they rode a bicycle. A combination of private car and bus was used by 7,351 people, and 2,041 people used a combination of carpool and bus. Some 539,296 people were interviewed about the transportation mode.

Ethnic information will be made available late this fonth.

Organist Lyn Larsen To Play at Southland

An organ concert featuring national theater organist and recording star Lyn Larsen is presented Saturday, September 13 at Southland Music Center in Lemon Grove.

The popular organist plans a program of popular music and light classics.

Larsen has recorded numerous top-selling theater organ records and has been the staff organist for the soap opera, "General Hospital." He is currently staff organist for Organ Stop Pizza Restaurant in Phoenix.

Tickets for the 8 p.m. concert are available by mail, phone or box office. The theater is located at 3459 Imperial ave., telephone 463-0308.

Truck Drivers' Retraining Program Set by Teamsters

A truck driver's vocational course, designed to qualify participants to handle all types of Teamster operated heavy construction equipment — any combination ranging from water trucks to giant seven-axle, low-bed carriers — is being developed by the San Diego County Construction Teamsters Training and Retraining Trust, with classes to start sometime in September.

The joint management-labor program is aimed at giving the contractor's employees the opportunity to learn how to operate and maintain the equipment, thus making these employees more versatile — and valuable — on the job.

Construction Teamsters, Local 36 and participating organizations are the Associated General Contractors of San Diego (AGC), Engineering and General Contractors Assn. (EGCA) and the San Diego Building Contractors Assn. (BCA).

The course, available to all Teamsters employees of contributing contractors, will be taught by Ken (Red) Gilliland, a veteran of more than 30 years experience in this field.

The instructor said he hopes to start the inital course, at a place and date yet to be designated, at the beginning of the fall semester. The course will consist of two phases — one a complete training program for inexperienced drivers, and the other a retraining program for those drivers with experience, utilizing video tape instruction. These programs will be augmented by a forklift training and certification program.

Qualified Teamster applications are now being accepted at Gilliland's office, Suite 117, at 2727 Camino del Rio South, San Diego, 92108.

"Today's heavy construction equipment has become highly sophisticated and requires a high degree of skill to operate," said Gilliland, noting that the driving cab in some of the big rigs "reminds one of the cockpit of a commercial jet aircraft."

Jail Service to Improve

Continued from Page 1

of a majority of those deputies.

Fact: Under the ordinance creating the Department of Corrections the 108 deputies would not be laid off, but are due to be phased into field jobs over a period of two years and replaced in the jail by Corrections personnel. Any decision to layoff deputies would be a unilateral one by Sheriff Duffy, who would be solely responsible for the future of those deputies.

Statement: Sheriff Duffy has alleged that Corrections personnel would not have the competence to operate the jail in the place of sworn deputies.

Custodial Repsonsibilities

Fact: The task of carrying out the custodial responsibilities of handling prisoners in the jail can be done just as competently by trained Corrections personnel as by sworn deputies. The use of highly-trained deputies for such custodial work, alone, is in fact a waste of their training and talent, which is of a much broader nature that that of Correctional personnel trained solely in jail operations. Not only will this chanegover enable deputies to be used to their full talent and capabilities in the field, but it will allow for more personnel at less cost in the jail. The average annual salary for a Probation assistant is $3,000 less than that of the deputy sheriff.

Statement: Sheriff Duffy has alleged that the County Jail would become the Adult Detention Center and that, consequently, there would be no County Jail in San Diego County to house prisoners.

Fact: The County Jail in Fresno County has been renamed the Adult Detention Center for some time and is still considered by the State and law enforcement officials as the official County Jail. Changing the jail's name does not change it purpose.

Move-Out Threat

Statement: Sheriff Duffy has threatened to remove all prisoners from the County Jail and transport them to jails outside the County when the Department of Corrections assumes control.

Fact: It is illegal for the Sheriff to transport prisoners to another facility without a specific court order granting him that authority. That order must be based on determination by the court that the existing jail facilities are "inadequate or unfit" to house prisoners.

Statement: Sheriff Duffy has charged that a Department of Corrections will result in increased release of dangerous criminals into the public sector.

Fact: The Department of Corrections will not be releasing dangerous criminals, but has a specific plan set out for alleviating overcrowding in the jail, including:

—Immediate release after booking of those inmates who would ultimately be released within 2-3 days anyway; usually those misdemeanor cases which are simply awaiting review by the jail captain.

— Use of citations in lieu of arrests and bookings for those suspects who are now released directly after booking.

Gives Judges Opinion

— Granting to judges the option of sentencing inmates directly to other institutions within the Department of Corrections. This would eliminate the ludicrous situation which now occurs when the jail is overcrowded while vacancies exist in Adult Institutions.

— Provision of alternative programs for "weekenders"; those persons sentenced by the courts to serve their jail terms on weekends. If these individuals are able to function satisfactorily on their own, five days a week, they do not need to be contributing to overcrowding in the jail.

In summary, it seems to be a waste of time to debate the intent of code sections and legal references among ourselves, when these issues should be decided by the courts.

The real discussion and concern shouuld be, "How can we get the job done better."

I believe that the Department of Corrections is designed to do the job better and that this will be shown in the coming months as the changeover takes place.

Letters (Cont'd)

Continued from Page 6

which they were appointed; that they have refused to discuss his defense in this case on the basis of the large volume of true evidence that is available and pertinent; that they have refused to assist him in obtaining the necessary documentary and personal evidence through the subpoena process. Instead, I claim in my petition to the Court, both attorneys have steadfastly assumed a strong adversary position and have repeatedly threatened me in their efforts to coerce acceptance of their plans to fabricate a "cop out" to avoid the exposure of the actual evidence which strongly implicates various officials, administrators and doctors in the San Diego City Schools, the Kaiser Permanente Health Foundation, Inc., the Veterans Administration Hospital, the Rees-Stealy Clinic, the California State Teachers Retirement System, the California Workmen's Insurance Fund, the California Attorney General, the California Dept. of Consumer Affairs, the San Diego County Medical Assn. and its Mediation Committee, the San Diego County District Attorney and at least three disabality insurance companies and their allied financial institutions.

I testified that I made complaints to the San Diego District Attorney by letters about these matters and that, thus far, no corrective action is evident.

The trial date is still set for September 29, in San Diego County Superior Court. I have expressed repeated official concerns that the actions of the court-appointed attorneys thus far are intended primarily to deprive me of my constitutional rights to present evidence in my own defense before a properly constituted jury.
